## 2. Investment Policies and Status of Asset Management

### (1) Investment Policies

As there have been no significant changes from policies described in “Investment Policy,” “Investment Properties” and “Distribution Policy” in the Securities Registration Statement (submitted on June 29, 2016; prepared in Japanese only), the disclosure is omitted.

### (2) Status of Asset Management

#### (Overview of the Period ended September 30, 2016)

##### i) Transition of KRR

KRR was established on October 3, 2014, under the Act on Investment Trusts and Investment Corporations of Japan (the “Investment Trust Act”). On October 30, 2014, KRR was registered with the Director-General of the Kanto Local Finance Bureau (registration number: Director-General of the Kanto Local Finance Bureau No. 97). KRR was listed on the Real Estate Investment Trust Securities (J-REIT) Market of Tokyo Stock Exchange, Inc. (the Tokyo Stock Exchange) (Securities code: 3453) on February 10, 2015. Subsequently, KRR raised funds through public offerings, including an international offering. As a result, the number of investment units issued at the end of the period ended September 30, 2016 was 422,450 units.

KRR seeks to invest primarily in neighborhood, community and other shopping centers that cater to the day-to-day needs of local area customers and have stable demand from retailers and customers, in order to provide stable investment returns over the long term. Sponsored by Kenedix, Inc., a leading, independent real estate asset management company, KRR entrusts its asset management and investment operations to Kenedix Real Estate Fund Management, Inc. (“KFM”), with the following strategies.

Note: For our management purposes and ease of classification, we define neighborhood, community and other shopping centers for daily needs as retail properties that generally have the following characteristics:

- Retail trade area of approximately a one to ten kilometer radius (and generally, a three to five kilometer radius), with customers predominantly from local areas surrounding the retail property
- Operational capacity to accommodate certain daily local retail needs and strong customer traffic on both weekdays and weekends
- Composed of various specialty stores to meet a range of day-to-day needs such as groceries, clothing and other daily goods and services

##### ii) Investment Environment

There were signs of a moderate economic rebound in Japan with recoveries in employment and income environment. Real GDP growth (2nd preliminary estimate) in the second quarter of 2016 was positive 0.7% on an annualized basis, indicating positive figures for two consecutive quarters. However, uncertainty in economy remains due to economic slowdown in developing countries, appreciation of yen and movements regarding Brexit.

As for Japan’s retail market, disparities among the retail market are seen as general merchandize stores (GMS) are reported to be struggling, but supermarkets and drugstores are performing relatively well, although there were some effects of bad weather.

The financial environment remained unstable due to global market events such as economic slowdown in China and UK decision of Brexit, and appreciation of yen. In addition, although decline in interest rates following the introduction of negative interest rate policy by the Bank of Japan in January 2016 temporarily pushed the TSE REIT Index up, the market got weak as expectation of additional monetary easing receded with concerns over side effects of negative interest rate policy. On the other hand, in the real estate market, J-REITs continue to purchase a substantial number of properties because of monetary easing and brisk equity raising activities by J-REITs.

##### iii) Management Performance

###### (A) Acquisition of Assets

KRR acquired and started the operations of the following trust beneficiary interests in real estate (one property acquired on April 20, 2016 with acquisition price of 1,724 million yen, five properties acquired on April 21, 2016 with acquisition price of 21,393 million yen and one property acquired on April 22, 2016 with acquisition price 4,010 million yen). As a result, the portfolio at the end of the period under review (September 30, 2016) consists 40 properties with the total acquisition price of 158,766 million yen.

Property number	Property type (Note 1)	Property name	Location (City or Ward, Prefecture)	Acquisition price (million yen) (Note 2)	Acquisition date
T-15	NSC	Nakamachidai Tokyu Store	Yokohama, Kanagawa	3,360	April 21, 2016
T-16	SS	Central Wellness Club Nagatsuta Minamidai	Yokohama, Kanagawa	1,724	April 20, 2016
T-17	SM	Life Kameido	Koto-ku, Tokyo	1,450	April 21, 2016
O-10	NSC	Million Town Tsukaguchi (Land)	Amagasaki, Hyogo	3,723	April 21, 2016
N-4	SS	Homecenter Kohnan Sunadabashi	Nagoya, Aichi	7,140	April 21, 2016
R-7	Urban Station-Front SC	Solala Plaza	Sendai, Miyagi	5,720	April 21, 2016

R-8	NSC	P-1 Plaza Tenno	Hamamatsu, Shizuoka	4,010	April 22, 2016
Total				27,127	

Note 1: Properties are categorized into the following five types of retail properties for daily needs: NSC (Neighborhood Shopping Center), SM (Supermarket), CSC (Community Shopping Center), Urban Station-Front SC (Urban Station-Front Shopping Center) and SS (Specialty Store).

We categorize these properties generally into five separate groups as follows.

Type of neighborhood, community and other shopping centers for daily needs	Features	Trade area
NSC (Neighborhood Shopping Centers)	Shopping centers with a supermarket as an anchor or core tenant and several specialty store tenants	three to five kilometer
SM (Supermarkets)	Stand-alone stores that primarily provide groceries, with a retail trade area	three kilometer
CSC (Community Shopping Centers)	Larger shopping centers than NSC, which have a supermarket as an anchor or core tenant in addition to specialty store tenants	five to ten kilometer
Urban Station-Front Shopping Centers	Shopping centers that are located in the immediate vicinity of an urban public transportation station, which take advantage of stable foot traffic	three to ten kilometer
SS (Specialty Stores)	Single- or multiple-tenant shopping centers that specialize in a single type of merchandise or service, such as drug stores, convenience stores, health clubs or electronic appliance stores	one to ten kilometer

Note 2: "Acquisition price" represents the purchase price of each trust beneficiary interest specified in purchase agreement in relation to the acquisition of each property (excluding acquisition costs, adjustment in property tax and city-planning tax, and consumption tax; and rounded down to the nearest one million yen).

## (B) Management and Operation of Assets

KFM provides property management services for all of the properties owned by KRR at the end of the period under review (September 30, 2016). By using the same company for both asset management and property management services, KRR aims to build stronger relationships with tenants and increase returns from its portfolio. Furthermore, by implementing retail property management that better reflects the needs of our tenants, KRR strives to accumulate know-how and improve tenant satisfaction. KRR invests primarily in neighborhood and community shopping centers that cater to the day-to-day needs of customers. The portfolio is diversified in terms of properties, tenants and other characteristics with a goal to generate consistent long-term cash flows. At the same time, a portion of the rent includes sales-linked rent to explore the upside potential (Note 1) for rental income. By using these measures, we aim to pursue a portfolio that achieves both stability and growth.

As of the end of the period under review, portfolio as a whole performed well with an overall occupancy ratio of 99.7%. Furthermore, the portfolio is diversified in terms of tenants as there are 405 end-tenants (Note 2) in our retail properties.

Note 1: "Upside potential" represents feasibility of rental income growth.

Note 2: The number of end-tenants is the sum of the number of end-tenants in a pass-through-type master lease and the number of master leasees in a sub-lease-type master lease.

## (C) Financing

When financing to acquire properties, KRR seeks to achieve the proper balance between financial stability and the cost of the funds with the objectives to achieve stable medium- to long-term returns and consistent growth of assets under management.

### (Equity Finance)

In the fiscal period under review, KRR sold a total of 64,000 newly issued units offered in Japan and overseas on April 20 2016, and raised 15,856 million yen to acquire properties. In addition, 3,200 units were issued through third-party allotment on May 18, 2016, raising 792 million yen that was used to prepay a portion of borrowing for acquisition of properties. Due to these activities, unitholders' capital increased to 94,256 million yen as of September 30, 2016.

### (Debt Finance)

During the fiscal period under review, KRR borrowed for the acquisition of properties and used the proceeds from the issuance of newly issued units through third-party allotment for the early repayment of debt. Consequently, debt totaled 69,300 million yen at the end of the fiscal period under review (September 30, 2016).

When undertaking borrowings, we seek to mitigate refinancing risks, by spreading out repayment dates and lengthening borrowing periods. On the other hand, we partially borrowed short-term loans from the point of flexibility under the financing strategy, also controlling financing cost. We use swaps to fix the interest payments to hedge against the risk of a rise in interest rates.

The below are borrowings at the end of the fiscal period.

Series	Lender	Amount (in thousands of yen)	Interest rate	Drawdown date	Repayment date (Note 1)	Repayment method	Remarks
6-A-1	Sumitomo Mitsui Banking Corporation	4,140,000	JBA 1-month JPY TIBOR + 0.45%	April 21, 2016	April 21, 2017	Full on maturity	Unsecured/ Unguaranteed

6-C	Sumitomo Mitsui Trust Bank, Ltd.	450,000	0.80300% (Note 2)	April 21, 2016	September 30, 2024		
6-D	Development Bank of Japan Inc.	890,000	0.76031% (Note 3)	April 21, 2016	September 30, 2024		
6-E	Sumitomo Mitsui Banking Corporation	2,670,000	0.93200% (Note 2)	April 21, 2016	April 21, 2026		
6-F (Note 4)	Sumitomo Mitsui Banking Corporation	800,000	JBA 1-month JPY TIBOR + 0.45%	April 21, 2016	April 21, 2017		
7-A	The Bank of Tokyo-Mitsubishi UFJ, Ltd.	1,070,000	JBA 1-month JPY TIBOR + 0.45%	April 22, 2016	April 21, 2017		
7-B	The Bank of Tokyo-Mitsubishi UFJ, Ltd.	890,000	0.88800% (Note 2)	April 22, 2016	October 31, 2025		

Note 1: The repayment date will be the following business day in case such date falls on a day that is not a business day or the preceding business day in case such date falls in the next calendar month.

Note 2: These borrowings are floating interest rates. However, we have entered into interest rate swap agreements to hedge the risks of interest rate volatility. These rates are the interest rates including the effect of the swaps (i.e., fixed interest rates).

Note 3: These borrowings are fixed rates.

Note 4: As for Series 6-F, there was no balance as of September 30, 2016 as it was prepaid in full on May 31, 2016. The repayment of Series 6-F was funded by net proceeds from the sale of new investment units through a third-party allotment with a May 18, 2016 payment date.

As a result, the average remaining years to maturity is 4.6 years, the weighted average interest rate is 1.00%, the long-term debt ratio is 82.6% and the LTV ratio (note), is 42.5%.

Note: The LTV ratio, or loan-to-value ratio, is the ratio of the total amount of borrowings, corporate bonds and tenant leasehold and security deposits (net of amounts reserved for return of tenant leasehold and security deposits), to the total assets minus amounts reserved for return of tenant leasehold and security deposits.

### (Credit Ratings)

The status of the credit ratings as of September 30, 2016 is as follows.

Credit Rating Agency	Details of the Ratings	
Japan Credit Rating Agency, Ltd. (JCR)	Long-Term Issuer Rating	A (Outlook: Stable)

### (Shelf Registration)

KRR filed a shelf registration statement for investment corporation bonds (excluding short-term investment corporation bonds) on September 29, 2016. Details are as follows.

Planned Issue Amount	100,000,000,000 yen
Planned Issuance Period	October 7, 2016 to October 6, 2018
Use of Funds	Acquisition funds for specified assets (as defined in Article 2, Paragraph 1 of the Investment Trust Law), repayment funds for borrowings, repayment funds for investment corporation bonds (including short-term investment corporation bonds), refund funds for lease and guarantee deposits, funds to pay for repairs and maintenance, working capital, etc.

### iv) Results of Operations

For this period, revenue was 6,374 million yen, operating income was 2,973 million yen, ordinary income was 2,519 million yen and net income was 2,518 million yen.

Furthermore, in accordance with the distribution policy in the KRR Articles of Incorporation, KRR made a distribution (excluding excess of earnings) of 2,487,385,600 yen which is almost equivalent to the earnings as defined in Article 136-1 of Act of Investment Trust and Investment Corporations for the fiscal period. Cash distributions are paid in accordance with Article 67-15 of the Special Taxation Measures Law (Law No. 26 of 1957, including subsequent amendments). Consequently, the distribution per unit (including the distributions in excess of earnings) was 5,888 yen.

Furthermore, in accordance with the policy for "Distribution of Money in Excess of Profits" as stated in the KRR Articles of Incorporation, KRR made a distribution in excess of earnings for the 36,330,700 yen allowance for temporary adjustment (as defined in Article 2-2-30 of the Ordinance on Accountings of Investment Corporations (Cabinet Office Ordinance No.47 of 2006, including subsequent amendments.)) for the purpose of reflecting the effect on distributions of the difference in earnings calculated under Japanese GAAP and Japanese tax laws in association with the amortization of fixed-term land lease rights (as defined in Article 2-2-30 (a) of the Ordinance on Accountings of Investment Corporations) and the item deducted from net asset (as defined in Article 2-2-30 (b) of the Ordinance on Accountings of Investment Corporations) in association with deferred losses on hedges. This resulted in a distribution in excess of earnings per unit of 86 yen.

Consequently, the distribution per unit for the fiscal period, including this excess distribution, was 5,974 yen (of which the distribution in

excess of earnings per unit was 86 yen).

**(Outlook)**

**i) Outlook for Asset Management**

The Japanese economy is expected to continue to recover at a moderate pace. However, we should pay attention to uncertainties about the overseas economy and politics regarding the economic slowdown in China, movements regarding Brexit, the direction of U.S. financial policies, the inauguration of the new U.S. President, etc. We also need to pay attention to changes in domestic economic environment, such as appreciation of yen and effects of “Quantitative and Qualitative Monetary Easing with Yield Curve Control” including the negative interest rate policy.

As for Japan’s retail sector environment, disparities among the retail market are seen as general merchandize stores (GMS) are reported to be struggling, but supermarkets and drugstores are performing well, and we anticipate that this trend to continue.

In the real estate trading market, we anticipate the high level of transaction volume to continue because of the strong appetite of J-REITs and other investors to acquire properties. The Bank of Japan’s monetary easing measures will help provide continuous supply of adequate funds in the real estate market. However, investors should also keep in mind the risk of changes in banks’ lending attitude towards real estate sector, as amount of banks’ outstanding loans towards real estate sector reached new highs.

From a medium to long-term perspective, to generate a steady stream of rental revenue, consistently increase our assets and establish a suitable financial position, KRR will continue to manage assets based on the following policies.

**(A) Investment Strategy for New Properties and Disposition Policy**

We receive a variety of support from many sources in order to achieve the steady growth of our assets and increase the value of our assets. One source is the Kenedix Group, including Kenedix, Inc., the parent company of KFM (Note 1). We also receive support from our Alliance Companies: Sumitomo Mitsui Finance and Leasing Co., Ltd., Nippon Commercial Development Co., Ltd., P&D Consulting Co., Ltd., and ITOCHU Corporation (Note 2). We are implementing a growth strategy that takes full advantage of the external growth opportunities created by the large and diverse acquisition pipeline made possible by the support of these companies.

When acquiring properties, we make decisions based on all applicable factors with emphasis on four parameters: the retail property’s attractiveness, its location, the property’s profitability and the tenant mix. By using this selection process results, we invest in retail properties with a competitive edge, and good prospects for consistent rental revenue and growth in asset value. We also invest in land ownership interests underlying retail properties. Regarding land-only properties, we make these investments after examining the terms of the land leasing agreement, the characteristics of the tenant, the asset value of the land, and the proportion of land-only properties in our portfolio. We may also consider making an equity investment in a tokumei kumiai (silent partnership) for the acquisition of preferential negotiation rights and opportunities for additional revenues, provided that we are given an opportunity to acquire them in the future.

Regarding disposition of a portfolio property, we make decisions based primarily on the significance of these properties in the context of the portfolio. This is assessed by comprehensive evaluation of the outlook for future profitability and asset value determined based on its current profitability and market trends.

Note 1: The Kenedix Group consists of Kenedix, Inc. and its subsidiaries and affiliates.

Note 2: KRR newly entered into an alliance agreement with ITOCHU Corporation on August 10, 2016.

**(B) Management Strategy for Existing Properties**

KRR is committed to building a portfolio that can pursue both stability and growth. We believe that implementing integrated asset and property management services makes it possible to properly manage retail properties and pursue internal growth. Furthermore, this integrated management framework facilitates activities to enliven local communities where our properties are located, enabling us to aim for medium to long-term growth in asset value.

To accomplish these goals, KFM oversees properties owned by KRR while placing priority on the following themes.

- “One-stop” asset management and property management services
- Continuously implementing a retail property management cycle through our in-house property management services
- Pursuit of internal growth through management of retail properties
- Directing investments and management policies to enliven local communities in the medium to long-term

“One-stop” asset management and property management services

KRR plans to use the integrated asset management and property management services of KFM for strengthening relationships with tenants and making the portfolio more profitable.

Continuously implementing a retail property management cycle through our in-house property management services

KFM provides property management services for all of KRR’s properties. We do this for the purposes of performing retail property

management that better reflects the needs of the tenants as well as accumulating know-how and improving tenant satisfaction. Specifically, we use direct contact with tenant companies at our properties in order to strengthen tenant relationships and make properties more profitable. To this end, we maintain periodic communication with tenants and perform questionnaire surveys to customers for monitoring of market conditions, so that we can identify the needs of tenants and the customers visiting their sites. This process makes it possible to find issues that stand in the way of achieving greater satisfaction for tenants and their customers. Once we have discovered points that require attention, we take actions that take full advantage of the resources and knowledge regarding retail properties within the Kenedix Group. Solutions include measures such as the effectively utilizing capital expenditures, optimizing tenant mix, realizing growth in asset value by pursuing property expansions, and cutting costs, to improve tenant satisfaction and acquire more know-how.

#### Pursuit of internal growth through management of retail properties

KRR seeks to use the proper management of retail properties to achieve the goals of consistent revenue, higher profitability and growth in asset value.

##### i. Effectively utilize capital expenditure

We will use proper and well-timed capital expenditures to increase the satisfaction of tenants and make our properties more competitive.

##### ii. Optimize tenant mix

We will constantly work on attracting new tenants that are highly appealing to shoppers and replace tenants with others, optimizing tenant composition, in order to seek stable revenue and higher profitability by attracting more customers.

##### iii. Realize growth in asset value by pursuing property expansions

We will use the extensive knowledge involving retail properties of the Kenedix Group and our Alliance Companies to utilize the underutilized space (note) at properties and expand properties. These measures will take into account the competitive position of each property, the effect on our financial position and other factors. By increasing space that can be leased, we would like to increase revenue and asset value.

Note: The underutilized space is defined as the area that is calculated by multiplying the floor space ratio, or the ratio of total area of the building to the site area, which is prescribed in Article 52 of the Building Standards Act (Act No.201 of 1950, including subsequent amendments.) and applied to each retail property in accordance with the Building Standards Act, City Planning Act (Act No.100 of 1968, including subsequent amendments.) and other laws and regulations, by the land area that is allowed to be used as a retail property site, and subtracting from this figure the actual gross floor area of the building.

#### Directing investments and management policies to enliven local communities in the medium to long-term

At our retail properties, we seek tenants that provide services, hold community involved events and use other measures to help enliven the local communities where our properties are located. We believe these activities will contribute to the medium to long-term growth in the asset value of these properties.

#### **(C) Financing**

We will establish a suitable financial foundation by examining numerous financing methods and selecting the optimum ones. These decisions will reflect interest rates and other elements of the financial environment. Our goal is to select financing methods that result in the optimum balance between financial stability and the financing cost.

#### **(D) Disclosure of Information**

Our policy concerning disclosure activities is to use extensive investor relations activities to distribute a broad range of information to investors and other related parties as well as to announce information as soon and as accurately as we can. We use TDnet (Timely Disclosure network) and press releases to meet the timely-disclosure requirements of the Tokyo Stock Exchange. In addition, we proactively post information on our website (<http://www.krr-reit.com/en/>).

#### **(E) Conflicts of Interest**

In addition to managing the assets of KRR, KFM provides asset management services to other investment corporations and real estate funds. KFM uses a “preferential right for acquisition opportunities” system for the property acquisition process. KFM has a pipeline committee, which includes a compliance officer, and operates in accordance with rules. This system is structured to prevent improper allocation of acquisition opportunities as well as conflicts of interest among the REIT and funds managed by KFM. Through these measures, KFM is taking suitable actions regarding conflicts of interest.

#### **(F) Important Subsequent Events**

Not applicable

**(Reference Material)****(A) Acquisition of Assets**

KRR acquired an asset (acquisition price of 1,370 million yen).

“Acquisition price” represents the amount specified in the sale and purchase agreement for the trust beneficiary interests, exclusive of the various expenses (acquisition expenses, property tax, city planning tax, consumption tax, etc.) required in the acquisition of the following assets.

Property number	Property type	Property name	Location	Seller	Acquisition price (million yen)	Appraisal value (million yen)	Acquisition date
N-5	SS	K's Denki Shin-Moriyama (Land)	Nagoya, Aichi	Nippon Commercial Development Co., Ltd.	1,370	1,410	November 1, 2016
Total			-	-	1,370	1,410	-

KRR also acquired a silent partnership equity interest (Acquisition price: 100,000 thousand yen) of JRP8 G.K., which acquired trust beneficiary interest of Yumemachi Narashinodai Mall, to secure flexible growth opportunities in the future as well as opportunities for additional revenues on October 31, 2016. Kenedix, Inc. acquired the rest of the silent partnership equity interest of JRP8 G.K. Consequently, JRP8 G.K. is deemed a related party under the Investment Trust Law.

**(B) Asset under Construction**

A new building with approximately 397.98 m<sup>2</sup> gross floor area (Note 1) (hereinafter the “restaurant building”) is being constructed on the underutilized site of Unicus Ina, a property owned by KRR. KRR expects the total construction cost for the restaurant building (Note 2) to be approximately 90 million yen and plans to complete the construction by mid-January 2017.

Note 1: “Gross floor area” indicates the gross floor area written on verification notice of building construction on August 29, 2016.

Note 2: “Total construction cost” indicates the estimate cost of the construction cost (excluding consumption taxes) as of September 30, 2016, provided the construction contract and the design and supervision consignment contract etc. that have signed. The total construction cost may change due to the change of the construction plan, etc.

**(C) Financing**

KRR borrowed funds on October 3, 2016 for the repayment of the borrowings that the repayment date came.

Please refer to “Assumptions for the Earnings Forecasts for the Fiscal Periods Ending March 31, 2017 and September 30, 2017” set forth below for information on current assumptions for the forecasts of operating results.

Note: The above forecasts are based on certain assumptions for calculation, and our judgment as of today. Actual operating revenues, operating income, ordinary income, net income, distributions per unit and distributions in excess of earnings per unit may vary due to changes in market conditions. These forecasts do not guarantee the distribution amount.

**Assumptions for the Earnings Forecasts for the Fiscal Periods Ending March 31, 2017 and September 30, 2017**

Item	Assumptions
Calculation period	<ul style="list-style-type: none"> <li>• The 4th fiscal period: October 1, 2016 to March 31, 2017 (182 days)</li> <li>• The 5th fiscal period: April 1, 2017 to September 30, 2017 (183 days)</li> </ul>
Property portfolio	<ul style="list-style-type: none"> <li>• It is assumed that there will be no changes (any acquisition of new properties or any sale of existing properties, etc.) in property portfolio of 41 assets, which are 40 existing assets (the “existing assets”) as of September 30, 2016 and an asset acquired on November 1, 2016 (the “asset acquired in the fourth fiscal period”), by the end of the fiscal period ending September 30, 2017.</li> <li>• The actual property portfolio may change due to the acquisition of new properties other than the asset acquired in the fourth fiscal period or the disposal of owned properties, etc.</li> </ul>
Operating revenues	<ul style="list-style-type: none"> <li>• Operating revenues of the existing assets are based on leasing agreements as of September 30, 2016, trend of tenants, real estate market trends and other factors.</li> <li>• Operating revenue of the asset acquired in the fourth fiscal period is based on its operating revenues calculated by the information provided by the sellers, leasing agreements as of September 30, 2016, trend of tenants, real estate market trends and other factors.</li> <li>• Dividends of 2 million yen and 5 million yen are assumed for the fiscal periods ending March 31, 2017 and September 30, 2017 respectively from the silent partnership equity interest acquired on October 31, 2016.</li> <li>• Operating revenues are based on the assumption that there will be no rent in arrears or non-payments by the tenant.</li> </ul>
Operating Expenses	<ul style="list-style-type: none"> <li>• Property-related operating expenses other than depreciation are calculated based on historic data, etc., and these costs reflect fluctuations in the costs, including leasing costs based on the leasing agreements.</li> <li>• Depreciation expenses of 720 million yen, and 724 million yen are assumed for the fiscal periods ending March 31, 2017 and September 30, 2017 respectively, using the straight-line depreciation method.</li> <li>• 482 million yen and 563 million yen of property related tax are expected to be expensed during the fiscal periods ending March 31, 2017 and September 30, 2017 respectively. For the 9 properties acquired after January 1, 2016, property-related taxes are not expensed in the fiscal period ending March 31, 2017 because KRR reimbursed the seller, pursuant to the purchase agreement, for the pro rata portion of the property-related taxes.</li> <li>• With respect to building repair expenses, the amount assumed to be necessary for each property is based on the repair plan of KFM for each fiscal period. However, repair expenses may be substantially different from the expected amount due to certain unexpected factors.</li> </ul>

Item	Assumptions
Non-operating expenses	<ul style="list-style-type: none"> <li>The amortization of offering-related costs are expected to be expensed 76 million yen and 76 million yen for the fiscal periods ending March 31, 2017, and September 30, 2017, respectively. It is assumed that the offering-related costs are amortized using the straight-line method over 3 years.</li> <li>For interest expenses and other debt-related costs, 376 million yen and 376 million yen are expected for the fiscal periods ending March 31, 2017, and September 30, 2017, respectively.</li> </ul>
Borrowings and Investment Corporation Bonds	<ul style="list-style-type: none"> <li>As of today, KRR has an outstanding balance of 68,700 million yen in borrowings and 2,000 million yen in investment corporation bonds.</li> <li>The LTV ratio is expected to be 42.9% and 42.9% at the end of the period ending March 31, 2017 and September 30, 2017, respectively. (rounded to the nearest tenth)</li> <li>The LTV ratio has been calculated according to the following formula:  <math display="block">\text{LTV ratio} = (\text{Borrowings} + \text{Corporate bonds} + \text{Tenant leasehold and security deposits} - \text{Amounts reserved for return of tenant leasehold and security deposits}) / (\text{Total assets} - \text{Amounts reserved for return of tenant leasehold and security deposits})</math> </li> </ul>
Investment units	<ul style="list-style-type: none"> <li>The forecasts are based on our assumption of 422,450 units issued as of today. It is assumed that there will be no changes in the number of investment units due to the new issuance of units until the end of the fiscal period ending September 30, 2017.</li> </ul>
Distributions per unit (excluding excess of earnings per unit)	<ul style="list-style-type: none"> <li>Distributions per unit (excluding excess of earnings per unit) are calculated in accordance with the distribution policy outlined in our Articles of Incorporation.</li> <li>We assume that there is no effect from the changes in market value of swaps on the distributions per unit for the fiscal periods ending March 31, 2017 and September 30, 2017.</li> <li>Actual distributions per unit (excluding excess of earnings per unit) may fluctuate due to various factors including movements in investment assets, fluctuations in rental revenues caused by tenant replacements, or unexpected repairs.</li> </ul>
Distributions in excess of earnings per unit	<ul style="list-style-type: none"> <li>We expect to record Allowance for Temporary Adjustment (ATA) to adjust the temporary differences between treatment of certain transactions under Japanese GAAP and Japanese tax laws in relation to Sunny Noma, which results from the depreciation of fixed term land lease right for business purposes, the expensed interest from asset retirement obligations and depreciation of buildings, during the relevant period (30 years starting from March 16, 2007).</li> <li>KRR has a policy to distribute the amount of increase in ATA, in excess of its earnings. Distributions in excess of earnings are expected to be 13 yen per unit and 13 yen per unit in the periods ending March 31, 2017 and September 30, 2017, respectively.</li> </ul>
Other	<ul style="list-style-type: none"> <li>Forecasts are based on the assumption that there will be no amendments to the law, taxation system, accounting standards, public listing regulations, requirements of the Investment Trusts Association, Japan, etc. that may affect the aforementioned forecast figures.</li> <li>Forecasts are based on the assumption that there will be no unexpected. Significant changes in general economic trends and real estate market trends or other conditions.</li> </ul>

**(7) Summary of Significant Accounting Policies**

<p>1. Method of depreciation of non-current assets</p>	<p>(1) Property, plant and equipment (including trust assets) The straight-line method is applied. Useful lives of the assets ranging are as follows: Buildings: 2 to 70 years Structures: 8 to 59 years Machinery and equipment: 10 to 25 years Tools, furniture and fixtures: 4 to 10 years</p> <p>(2) Intangible assets (including trust assets) The straight-line method is applied.</p> <p>(3) Long-term prepaid expenses The straight-line method is applied.</p>
<p>2. Accounting for deferred assets</p>	<p>(1) Organization costs Organization costs are amortized over a period of 5 years under the straight-line method.</p> <p>(2) Investment unit issuance costs Investment unit issuance costs are amortized over a period of 3 years under the straight-line method.</p>
<p>3. Accounting for revenues and expenses</p>	<p>Accounting for property-related taxes Property-related taxes including property taxes, city planning taxes and depreciable property taxes are imposed on properties on a calendar year basis. These taxes are generally charged to operating expenses for the period, for the portion of such taxes corresponding to said period. Under Japanese tax regulations, the seller of the property is liable for these taxes on the property from the date of disposal to the end of the calendar year in which the property is disposed. The seller, however, is reimbursed by the purchaser for these accrued property-related tax liabilities. When KRR purchases properties, it typically allocates the portion of the property-related taxes related to the period following the purchase date of each property through the end of the calendar year. The amounts of those allocated portions of the property-related taxes are capitalized as part of the acquisition costs of the related properties. Capitalized property-related taxes amounted to 73,320 thousand yen and 106,443 thousand yen as of March 31, 2016 and September 30, 2016, respectively.</p>
<p>4. Method of hedge accounting</p>	<p>(1) Hedge accounting method Deferral hedge accounting is applied. However, the special treatment is applied for the interest-rate swap agreements that meet the criteria for special treatment.</p> <p>(2) Hedging instruments and hedged items Hedge instruments Interest-rate swap transactions Hedged items Interest payments on debts</p> <p>(3) Hedging policy KRR enters into derivative transactions based on its risk management policies with the objective of hedging risks provided in its Articles of Incorporation.</p> <p>(4) Method of assessing the effectiveness of hedging As for the method of assessment of the effectiveness of the hedge in the period from the inception of the hedge to the time of judgment of its effectiveness, the cumulative changes in cash flow of the hedged items and hedging instruments are compared and a judgment is made based on changed amount, etc. However, an assessment of the effectiveness of hedging activities is omitted in the case of interest rate swaps that meet the requirements for special treatment.</p>
<p>5. Scope of cash and cash equivalents on statements of cash flows</p>	<p>Cash and cash equivalents consist of cash on hand, deposits placed with banks and short-term investments which are highly liquid, readily convertible to cash and with insignificant risk of market value fluctuation, with maturities of three months or less from the date of purchase.</p>
<p>6. Other significant accounting policies for the preparation of financial statements</p>	<p>(1) Accounting method for trust beneficiary interests in real estate and other assets The assets and liabilities as well as revenues and expenses of financial assets held in the form of trust beneficiary interests in real estate and other assets are recorded in full in KRR's balance sheet and statement of income and retained earnings. Of the assets in trust accounted for under the respective account items, the following significant items are separately indicated on the balance sheet. 1. Cash and deposits in trust 2. Buildings in trust, structures in trust, machinery and equipment in trust, tools, furniture and fixtures in trust, land in trust, construction in progress in trust 3. Leasehold right in trust 4. Lease and guarantee deposits in trust 5. Tenant leasehold and security deposits in trust</p> <p>(2) Accounting method for consumption taxes Consumption taxes are separately recorded. Non-deductible consumption taxes applicable to the acquisition of assets are included in the cost of acquisition for each asset.</p>

(Notes to the Financial Instruments)

1. Overview

(1) Policy for financial instruments

KRR procures funds for asset acquisitions, repairs, payment of distributions, repayment of loans, etc. through loans from financial institutions, issuance of investment units and other means. With regard to the procurement of interest-bearing debts, KRR ensures that it can effectively combine stable long-term funds with flexible short-term funds. Management of surplus funds is undertaken through various bank deposits focusing on safety, liquidity and effectiveness. KRR uses derivatives for the purpose of hedging its exposure to changes in interest rates and other risks and does not enter into derivative transactions for speculative or trading purposes.

(2) Types of financial instruments and related risk

Bank deposits are for managing KRR's surplus funds and are exposed to credit risk such as the bankruptcy of financial institutions at which funds are deposited.

Borrowings, which are made primarily for the purpose of procuring funds for the acquisition of real estate and trust beneficiary interests in real estate and have a repayment date of a maximum of 9 years and 7 months as of September 30, 2016, the end of the third fiscal period, are exposed to liquidity risk where alternative funds may not be procured by the repayment date. Also, borrowings with floating interest rates are exposed to interest rate fluctuation risk. Derivatives are used for the purpose of hedging interest rate fluctuation risk for a certain portion of the borrowings.

Tenant leasehold and security deposits are deposits received from tenants, which are exposed to liquidity risks when the tenants vacate the properties.

(3) Risk management for financial instruments

a. Credit risk

While bank deposits are exposed to credit risk such as the bankruptcy of financial institutions at which funds are deposited, such risk is monitored by deposits in non-interest bearing ordinary savings accounts or with financial institutions with credit ratings above a certain level. In utilizing derivatives, KRR aims to mitigate counterparty risk such as by transacting with financial institutions with favorable ratings.

b. Market risk

While borrowings with floating rates are exposed to interest rate volatility risk, such risk is monitored by adjusting the rate of the balance of borrowings with floating rates against the total borrowings according to the financial environment, interest rate forecasts by continuous monitoring, etc. and by using derivatives, etc. A risk management policy is established with regard to the execution and management of derivatives and such transactions are conducted based on this policy.

c. Liquidity risk

Though borrowings are subject to liquidity risk, KRR reduces such risk by spreading out payment due dates and by diversifying financial institutions. Liquidity risk is also managed by such means as regularly checking the balance of cash reserves.

Though tenant leasehold and security deposits are subject to liquidity risk, in principle, KRR reduces such risk by retaining funds that would enable KRR to return necessary amounts to tenants.

(4) Supplementary explanation of the estimated fair value of financial instruments

The fair value of financial instruments is based on their quoted market price, if available. When there is no quoted market price available, fair value is reasonably estimated. Since various assumptions and factors are reflected in estimating the fair value, different assumptions and factors could result in a different fair value.

2. Estimated fair value of financial instruments

The carrying value of financial instruments on the balance sheets and estimated fair value are shown in the following table. Items whose fair values are difficult to determine are not included in the following table (Note 2).

Note1: Methods to determine the estimated fair value of financial instruments and matters related to derivative transactions

Assets

(1) Cash and deposits and (2) Cash and deposits in trust

Since these items are settled in a short period of time, their carrying amount approximates fair value.

Liabilities

(1) Short-term loans payable

Since these items are settled in a short period of time, their carrying amount approximates fair value.

(2) Long-term loans payable

Among these items, the fair value of loans payable with fixed interest rates is calculated based on the present value, which is the total amount of principal and interest discounted by the estimated interest rate to be applied in the event that KRR conducts new loans of the same type. As for the fair value of loans payable with floating interest rates, it is based on the carrying amount since market interest rates are reflected in the short term and the fair value is believed to approximate the carrying amount as the credit standing of KRR has not changed significantly since the loans were made. (However, the fair value of long-term loans payable subject to the special treatment for interest-rate swaps is based on the present value of the total of principal and interest, accounted for together with the applicable interest-rate swaps, discounted by the estimated interest rate to be applied in the event that KRR conducts new loans payable of the same type.)

(3) Tenant leasehold and security deposits in trust

The fair value is determined based on the present value of contractual cash flows discounted at the discount rate into which the period to the repayment date and the credit risk are reflected.

Derivative transactions

Please refer to "Notes to Derivative Transactions".

- Note 1: "Leasable area" is equivalent to gross floor area of space that we consider to be available for lease in each property, rounded to the nearest tenth. For land-only properties, leasable area is equivalent to land area as described in the property registry.
- Note 2: "Leased area" indicates the total leased area based on the lease agreements for each property as of September 30, 2016. As for lease agreements of buildings, the leased area of warehouses and land are excluded. As for pass-through type master leases, the leased area based on the lease agreements between the master lessee and the end-tenants as of September 30, 2016 is shown. As for sublease type master leases, the leased area to the master lessee is shown.
- Note 3: "Occupancy rate" is calculated by dividing leased area by leasable area as of September 30, 2016, rounded to the nearest tenth. The "Total" of "Occupancy rate" represents the average occupancy rate of all properties in the initial portfolio.
- Note 4: "Number of tenants" is based upon the number of lease agreements with respect to the building(s) (or land in the case of land-only properties with leasehold interest) on each such property used mainly as stores and offices, as of September 30, 2016. Where one lessee leases more than one section of the property, the lessee is counted as a tenant for each section leased within the property. Where pass-through type master lease agreements are entered into, the number of master lessees is with the number of end-tenants indicated in parentheses. Where sublease type master lease agreements are entered into, the indicated, number of master lessee is shown. The "Total" of "Number of tenants" shows the total number of tenants. As for pass-through type master leases, the number of end-tenants is used for calculation. As for sublease type master leases, the number of master lessee is used for calculation.
- Note 5: "Annualized fixed rent" is generally calculated by multiplying the monthly fixed rent and common area charges under a leasing contract with tenants at portfolio properties as of September 30, 2016 (excluding warehouses in the case of building lease agreements) by twelve and rounding down to the nearest thousand yen. For master leases, where the master lease company sub-leases space to other tenants, the fixed monthly rent under the master lease contract is multiplied by twelve, rounded down to the nearest thousand yen.
- Note 6: "Tenant leasehold and security deposits" indicates the outstanding balance of any tenant leasehold and security deposit from the relevant end-tenant(s) set forth in lease agreement(s) effective as of September 30, 2016 (excluding warehouses in the case of building lease agreements), rounded down to the nearest million yen.
- Note 7: We have not obtained consent from the tenant(s) to release this information.
- Note 8: The total area that we own exclusively as a compartmentalized ownership interest (retail space) is shown.
- Note 9: Calculated by multiplying the monthly rent and common area charges for September 2016 under the leasing contract by twelve and also taking into consideration the ownership ratio (93.20%) under the compartmentalized ownership agreement.
- Note 10: Calculated by multiplying the tenant leasehold and security deposits for the whole building as of September 2016 by the ownership ratio (93.20%).

iii) Overview of the appraisal reports

The following show the summaries of the appraisal reports is the appraisal value of the acquired properties described in each real estate appraisal report prepared by real estate appraisers, including Daiwa Real Estate Appraisal Co., Ltd., Japan Real Estate Institute, and The Tanizawa Sōgō Appraisal Co., Ltd. as requested by KRR, based on an important notice concerning real estate appraisal in the context of the Act on Investment Trusts and Investment Corporations, Act on Real Estate Appraisal (Act No. 152 of 1963, including subsequent revisions) and real estate appraisal standards. The appraisal value is the judgment and opinion of the appraiser at a fixed point in time, with no guarantees as to the validity or accuracy of the report, nor to the possibility of transactions at the appraised value. There are no special relations of interest between Daiwa Real Estate Appraisal Co., Ltd., Japan Real Estate Institute, and The Tanizawa Sōgō Appraisal Co., Ltd. and KRR or KFM.

Note 1: "Appraisal NOP" is the Net Operating Income calculated by subtracting the amount of operating expenses from the operating revenues described in relevant appraisal reports, and it is the income before depreciation and differs from NCF (Net Cash Flow) which is calculated by adding investment gains from such as deposits and subtracting capex from NOI. The above appraisal NOI is calculated using the direct capitalization method. However, where the direct capitalization method is not applicable, appraisal NOI indicates the net operating income for the first year based on the DCF method. (Note that Unicus Kamisato (Land) and Unicus Konosu (Land) use NOI for the third year, when ordinary operations are expected to take place.) The amounts are rounded down to the nearest one million yen.

Note 2: "Appraisal NOI yield" indicates the value calculated using the following formula and rounded to the nearest tenth. The "Total/average" of "Appraisal NOI yield" indicates the average appraisal NOI yield which is a weighted average of appraisal NOI yields of the acquired properties (rounded to the nearest tenth).  
Appraisal NOI of each property / Acquisition price for each property.

Note 3: Inwood method discount rate is shown for discount rate of land-only properties.

iv) Overview of building condition investigation reports

KRR has obtained engineering reports, containing the diagnosis of building deteriorations, short- and long-term repair and maintenance plans, the assessment of legal compliance with the Building Standard Act and other laws and regulations, the investigation of hazardous substances in a building and soil environment for the acquired properties and the to-be acquired properties. These reports represent judgement and opinion of the appraisers for a fixed point of time, with no guarantees as to the validity or accuracy of the report.

## vii) Overview of portfolio

## (A) Distribution by Property Type

Property type	Number of properties	Acquisition price (in millions)	Percentage of total portfolio acquisition price (%) (Note)
Neighborhood, community and other shopping centers for daily needs	40	158,766	100.0
NSC (Neighborhood Shopping Centers)	16	73,768	46.5
SM (Super Markets)	8	11,449	7.2
CSC Community shopping Centers)	1	14,848	9.4
Urban Station-Front Shopping Centers	6	38,028	24.0
SS (Specialty Store)	9	20,673	13.0
Other retail properties	-	-	-
Total	40	158,766	100.0

Note: Percentage of total portfolio acquisition price is rounded to the nearest tenth. Therefore, the sum of the percentage of total acquisition price may differ from the portfolio total.

## (B) Distribution by Location

Region	Number of properties	Acquisition price (in millions)	Percentage of total portfolio acquisition price (%) (Note)
Four major metropolitan areas	32	128,361	80.8
Tokyo metropolitan area	17	70,136	44.2
Greater Osaka area	10	44,214	27.8
Greater Nagoya area	4	12,514	7.9
Fukuoka area	1	1,497	0.9
Ordinance-designated cities, core cities and other areas	8	30,405	19.2
Total	40	158,766	100.0

Note: Percentage of total portfolio acquisition price is rounded to the nearest tenth. Therefore, the sum of the percentage of total acquisition price may differ from the portfolio total.

## (C) Distribution by Property Age

Property age (Note 1)	Number of properties	Acquisition price (in millions)	Percentage of total portfolio acquisition price (Note 2)
Less than 5 years	-	-	-
5 years or more but less than 10 years	12	44,828	33.3
10 years or more	18	89,717	66.7
Total	30	134,545	100.0

Note 1: Property age refers to the number of years from the date of the new construction of the property set out in the real estate registry to September 30, 2016. Where multiple buildings exist on the property, the property age is calculated using the average age of those buildings.

Note 2: Percentage of total portfolio acquisition price is rounded to the nearest tenth. Therefore, the sum of the percentage of total portfolio acquisition price may differ from the portfolio total.

## (D) Distribution by Lease Term Remaining

Lease term (remaining period) (Note 1)	Annual fixed rent (in millions) (Note 2)	Ratio (%) (Note 3)
Less than 2 years	1,953	18.7
2 to less than 5 years	1,452	13.9
5 to less than 10 years	2,951	28.3
10 to less than 15 years	2,628	25.2
15 to less than 20 years	793	7.6
20 years or more	640	6.1
Total	10,420	100.0

Note 1: "Lease term (remaining period)" is based on period until the last date of the lease as set forth in the relevant lease agreements as of September 30, 2016 (excluding warehouses for building lease agreements) for each acquired property and to-be acquired property.

Note 2: "Annual fixed rent" for acquired property is calculated by multiplying the monthly fixed rent and common area charges for the month ended September 30, 2016 (excluding warehouses in the case of building lease agreements) by twelve and rounding down to the nearest million yen. For master leases, where the master lease company sub-leases space to other tenants, the fixed monthly rent under the master lease contract is multiplied by 12, rounded down to the nearest million yen.

Note 3: "Ratio" is based on the annual fixed rent, rounded to the nearest tenth. As a result, simple aggregation of "ratio" figures may not be the same as the total period.

## (E) Distribution by lease contract type

Type of lease contract	Ratio (%) (Note)
Fixed-term building lease	66.6
Regular building lease	20.0
Commercial fixed-term land lease	13.3
Other	0.0
Total	100.0

Note: "Ratio" is based on the annual fixed rent as indicated in Note 2 of (D) above, rounded to the nearest tenth. As a result, simple aggregation of "ratio" figures may not be the same as the total figure.

## (F) Rent type (Fixed / Sales-linked rent)

Rent type (Note 1) (Fixed / Sales-linked rent)	Ratio (%) (Note 2)
Fixed rent	81.9
Fixed rent with sales-linked rent	13.1
Sales-linked fixed	4.9
Total	100.0

Note 1: "Fixed rent" refers to rent that remains unchanged regardless of actual tenant sales revenues as set forth in the relevant lease agreements. "Fixed rent with sales-linked rent" refers to rent that consist of a portion that remains unchanged regardless of actual tenant sales revenues and a portion that is based on tenant sales as set forth in the relevant lease agreements. "Sales-linked rent" refers to rent that is based on actual tenant sales revenues as set forth in the relevant lease agreements.

Note 2: "Ratio" is calculated according to the actual rent effective between April 1, 2016 and September 30, 2016, rounded to the nearest tenth. As a result, simple aggregation of "ratio" figures may not be the same as the total figure.

## viii) Capital expenditures

## (A) Planned capital expenditures

The table below shows major capital expenditures (Note) for renovations, repairs and other projects that are planned for the fourth fiscal period ending March 31, 2017. These expenditures are for real estate owned by KRR and real estate in trusts in which KRR owns trust beneficiary rights. These planned projects may include some expenditures that will be recorded as expenses rather than capital expenditures for accounting purposes.

Property number	Property name	Location	Purpose	Schedule	Planned amount of capital expenditure (Millions of yen)		
					Total	Payment for the period	Total amount already paid
T-6	Yorktown Kita-Kaname	Hiratsuka, Kanagawa	Roof waterproof	From October 2016 to March 2017	67	-	-
O-5	Carino Esaka	Suita, Osaka	Elevator and escalator renewal	From October 2016 to March 2017	59	-	-
T-2	MONA Shin-Urayasu	Urayasu, Chiba	PMAC replacement	From October 2016 to March 2017	51	-	-
T-5	Unicus Ina	Kitaadachi-gun, Saitama	Exterior wall painting	From October 2016 to March 2017	46	-	-
O-1	Blumer Maitamon	Kobe, Hyogo	LED installation to common area	From October 2016 to March 2017	41	-	-

Note: The construction of a new restaurant building in Unicus Ina is not including in the above list because it involves an acquisition of a new building. Please see Section 2. Investment Policies and Status of Asset Management, (Reference Material), (B) Asset under construction for details.

## (B) Capital expenditures during the period under review

The table below shows major capital expenditures for renovations, repairs and other projects in the period under review.

The amount of capital expenditures in the period under review was 264 million yen. There were also expenditures of 150 million yen that were recorded as repair expenses. In total we spent 415 million yen on the projects.

Property number	Property name	Location	Purpose	Schedule	Capital expenditure (Millions of yen)
T-2	MONA Shin-Urayasu	Urayasu, Chiba	Replacement of water generator and rooftop piping	From January 2016 to May 2016	89
T-2	MONA Shin-Urayasu	Urayasu, Chiba	Reparement of shutter	From June 2016 to August 2016	20
O-1	Blumer Maitamon	Kobe, Hyogo	Common area refurbishment	From April 2016 to April 2016	20
T-2	MONA Shin-Urayasu	Urayasu, Chiba	Reparement of cooling tower	From March 2016 to June 2016	19
R-1	Roseo Mito	Mito, Ibaraki	Singboard and exterior wall painting	From July 2016 to September 2016	13
Other					101
Total					264

## (C) Reserved Amount for Long-Term Repairs, Maintenance and Renovation Plans

Not applicable

ix) Major portfolio properties

The table below shows the major property owned by KRR as of September 30, 2016. Major properties are defined as those that account for 10% or more of our total rental revenue generated from all assets held by KRR.

Property number	Property name	Number of tenants	Annual rent (Millions of yen) (Note)	Leased area (m <sup>2</sup> )	Leasable area (m <sup>2</sup> )
T-1	Fululu Garden Yachiyo	49	1,074	76,751.87	77,057.56

Note: Annual rent is 12 times the fixed monthly rent (including a common service charge) under a leasing contract with tenants at portfolio properties as of September 30, 2016 (excluding building leasing contracts for warehouses), rounded down to the nearest million yen. For master leases, where the master lease company sub-leases space to other tenants, the fixed monthly rent under the master lease contract is multiplied by 12, rounded down to the nearest million yen.

## (3) Information Concerning Major Tenants

## i) Top End-Tenants in Terms of Rent

The following summarizes top ten tenants (end-tenants or sub-lease type master leasee) as of September 30, 2016

Note 1: "Type of business" is based on Japan Standard Industrial Classification.

Note 2: "Ratio" is the ratio of leased area of the end-tenant to total leasable area of the portfolio as of September 30, 2016, rounded to the nearest tenth.

Note 3: "Annual fixed-rent" for each property is based on monthly contracted rent (including common area charges) as set forth in the relevant lease agreements effective as of September 30, 2016 (excluding warehouses for building lease agreements) for each property or property in trust, truncated to thousands of yen. In a sub-lease-type master lease, the annual rent (excluding consumption taxes) agreed upon in the master lease agreement or the amount obtained by multiplying the monthly rent (excluding consumption taxes) agreed upon in the master lease agreement by 12, rounded down to the nearest thousand yen, is shown.

Note 4: Indicates the outstanding balance of any tenant leasehold and security deposit from the relevant end-tenant(s) set forth in lease agreement(s) effective as of September 30, 2016, rounded down to the nearest million yen.

Note 5: We have not obtained consent from the tenant to release this information.

ii) Top End-Tenants in Terms of Leased Area

Note 1: Annual repayments of long-term loans payable (except for current portion of long-term loans payable) scheduled after the balance sheet date are as follows:

(Thousands of yen)

	Due after 1 year through 2 years	Due after 2 years through 3 years	Due after 3 years through 4 years	Due after 4 years through 5 years	Due after 5 years
Long-term loans payable	3,850,000	6,980,000	7,000,000	7,000,000	32,400,000

Note 2: All debts except for the following Note 6 are borrowings at a floating rate.

Note 3: Average interest rates are the weighted average during the period and figures are rounded to the nearest third decimal place. Also, with regard to borrowings for which interest rate swap transactions were implemented in order to hedge the interest rate volatility risk, the weighted average interest rates taking into consideration the effects of the interest rate swaps are indicated.

Note 4: All the repayment methods of debt financing except for the following Note 7 are lump-sum repayments on the due date.

Note 5: All debts were used as the funds for acquiring real estate properties or trust beneficiary interest in real estate (additional expenses are included) and repayment of debts.

Note 6: Borrowings at a fixed rate.

Note 7: Prepayment was made on May 31, 2016.
