谷島屋

An aerial photograph of a city, likely Tokyo, showing a dense urban landscape with numerous buildings and a prominent railway line running through the center. The left side of the image is partially obscured by a dark, semi-transparent overlay.

01

Impact of COVID-19

3453

□ Direct impact on NOI

Rent reduction/deferral requests due to tenant sales decline

Some tenants facing sales decline due to the spread of COVID-19 have requested rent reduction/deferral

Decrease in sales-linked rent

Tenant sales decline also led to decrease in sales-linked rent

Total sales-linked rent accounts for 2.6% of rent income for the 10th fiscal period

Delayed leasing of vacant spaces

Prolonged downtime due to delayed leasing, including cancellations of tenant move-in

□ Other impact

Impact on appraisal values

No significant impact on appraisal values so far as rent reduction is a temporary measure

Closely monitor the possibility of deterioration in the real estate market mainly caused by decline in investment appetite

Changes in lending policies of financial institutions

Financial institutions have not changed their lending policies so far

Attention should be paid to the further spread of COVID-19 and the prolonged situation

Operation of facilities under the state of emergency

Operation of KRR's facilities

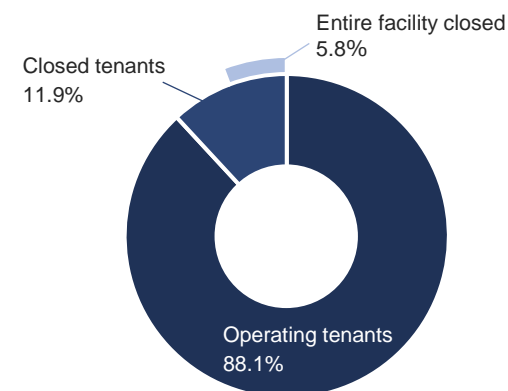

88.1% tenants are operating; 11.9% are closed, 5.8% of which are in the facility entirely closed (as of the end of Apr. 2020)

Retail properties		Number of properties	As of April 30, 2020
Retail facilities in operation	Other than following	51/57 retail properties	As stores selling foods and daily necessities are included, continue to operate and function as a social infrastructure supporting daily life Stores requested to suspend operation are closed, and some stores are also voluntarily closed
Retail facilities entirely closed	Sports Club Renaissance Fujimidai Central Wellness Club Nagatsuta Minamidai Prime Square Jiyugaoka Konami Sports Club Shibuya Round1 Ichikawa-Onitaka Round1 Stadium Hakata-Hanmichibashi	6/57 retail properties	In response to the state of emergency declaration, the entire building is closed at each tenant's discretion

Facilities requested to basically suspend operation by local governments (Tokyo)

- Entertainment facilities: None in KRR's portfolio
- Universities and private cramming schools: Cram schools, English conversation schools
- Health clubs and amusement facilities: Sports clubs, game centers, bowling alleys
- Theaters: Movie theaters
- Assembly and display facilities: None in KRR's portfolio
- Retail stores (individual stores in business): Retail stores selling other than daily necessities, and services that are not necessary for daily life

Operation of tenants (as of the end of Apr. 2020)

Examples of infection prevention measures at facilities in operation

- Antiseptic solution at the facility entrance
- Thorough cleaning of common areas
- Disinfection of areas where people touch, such as handrails and doorknobs
- Thorough ventilation in core tenant areas, common areas, and employee rest areas
- Encouraging tenant employees to wear masks

Impact of COVID-19 by tenant category

Tenant category	Proportion	Status
Groceries & Costco <small>(Note 2)</small>	27.7%	Demand for daily necessities remains firm even under the state of emergency
Master lease (ML)	12.4%	Retail facilities with grocery supermarkets and home & garden stores as core tenants, and relatively stable owing to the strength of ML
Home & garden	8.8%	Special demand for paper products and gardening supplies. Removed from the list of suspension under the state of emergency
Service oriented	7.8%	While clinics are relatively less affected, massage and barber salons are greatly affected
Other retailers	7.0%	Affected in situations where people refrain from purchasing goods other than daily necessities. If the situation is prolonged, EC will be promoted
Amusement <small>(Note 3)</small>	6.0%	Subject to suspension where unnecessary outings are refrained and activities in closed spaces are restricted, and have a significant impact
Health clubs	5.9%	Subject to suspension where unnecessary outings are refrained and activities in closed spaces are restricted, and have a significant impact
Apparel	5.6%	Longer purchase cycles due to fewer opportunities to go out
Consumer electronics	5.5%	Increased demand for telework-related products, but affected in the situation where people refrain from going out unnecessarily

Tenant category	Proportion	Status
Distribution centers	5.4%	Increase in delivery volume due to expenditures from staying at home
Restaurants	3.8%	Significantly affected where unnecessary outings are refrained and activities in closed spaces are restricted
Drug stores	2.6%	Demand for daily necessities remains firm even under the state of emergency. Special demand for masks and paper products
Dollar shops	1.4%	Increasing demand mainly for masks, sanitary products and daily necessities
Offices	0.2%	The office space is relatively immune to the COVID-19 pandemic

Percentage of tenant category (based on rents)

Note 1: The figures are as of Mar. 31, 2020, based on the 63 properties acquired by the date of this material.

Note 2: "Costco" refers to Costco Wholesale.

Note 3: "Amusement" includes movie theaters.

Changes in tenant sales

▣ Changes in tenant sales (YoY)

1.0% increase in tenant sales for the 10th FP ended Mar. 2020

3.8% decrease in Mar. 2020 ^(Note)

Note: "Changes in tenant sales" is based on the sales figures available to KRR. Health clubs and amusement tenants' sales figures are not available and not included. The sales figures do not take into account the effect of difference in days of the weekends in each period, and sales by business category are those that take into account the effect of the day of the week.

Impact of COVID-19 on KRR's portfolio

□ Rent reduction/deferral requests

Many tenants, especially those involved in service-oriented business, are closed under the state of emergency, and some of them have requested for rent reduction/deferral

Rent reduction requests: 109/497 tenants, 111,930.89m²/946,634.13m² rented area; 48 of which are service-oriented and 40 of which are restaurants (as of the end of Apr. 2020)

In order to prevent move-out and bankruptcy of tenants whose sales are declining due to the spread of COVID-19, selectively grant rent reduction/deferral to some tenants with an aim to sustain businesses of both tenants and KRR

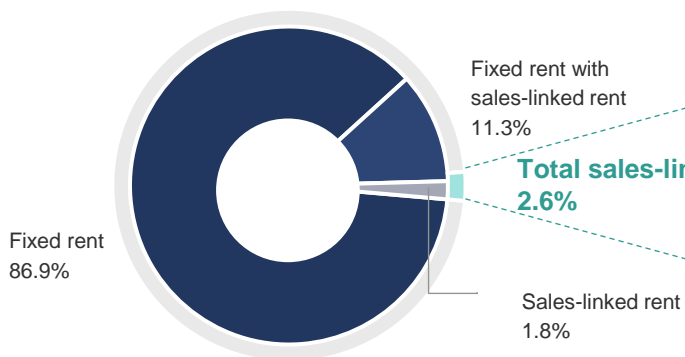

Policy on response to rent reduction requests

Consider the following when accepting rent reduction/deferral requests:

- Performance of tenants
- Rate of decrease in tenant sales
- Financial conditions of tenants
- Lease contract type
- Period of the state of emergency
- Impact on KRR's operation

□ Status of sales-linked rent (Note)

Rent type (2019/10-2020/3)

Percentage of tenant category of sales-linked rent (based on rents)

Sundry goods	48.2%
Clothing	14.1%
Other retailers	13.7%
Restaurants	8.1%
Drug stores	5.9%
Dollar shops	5.5%
Groceries	2.8%
Service businesses	1.7%

- Non-service-oriented tenants cover over 90% of sales-linked rent

□ Delayed leasing of vacant spaces

Tenants are cautious about opening new stores, resulting in cancellations of tenant move-in and prolonged downtime

Occupancy rate is 99.4% as of the end of Mar. 2020

Note: The figures of "Rent type" is for the 10th fiscal period.

Variation factors affecting DPU

Note: The impact has been calculated based on certain assumptions, taking into account the matters described in p.8, Policy on response to rent reduction requests.

02

Financial results and forecasts

3453

Distribution per unit

Distribution per unit (JPY)

(The boxes in orange lines indicate the forecasts as of Nov. 15, 2019)

Key points of the 10th FP ended March 31, 2020

- Increase in NOI resulting from Asset reshuffling and public offering
- DPU increase from the **gain on sale** of Welcia Kishiwadakamori (Land)
- **Full-period contribution** of the properties acquired in the 9th fiscal period to DPU growth

*Please refer to p.9 for details of the key points of the 11th FP ending September 30, 2020 and 12th FP ending March 31, 2021

As the impact of the spread of the COVID-19 is currently unclear, the target stabilized DPU and AUM will be revised based on the previous target (7,000 yen for stabilized DPU and 300 billion yen for AUM) after the COVID-19 crisis

NAV per unit and unrealized gain

NAV per unit

Unrealized gain	JPY 2,130 mn	JPY 4,657 mn	JPY 6,720 mn	JPY 8,493 mn	JPY 10,861 mn	JPY 12,270 mn	JPY 14,213 mn	JPY 14,438 mn	JPY 14,695 mn	JPY 15,572 mn

Note: NAV per unit at the end of each fiscal period = (net assets + unrealized appraisal gains/losses on the entire portfolio at the end of each fiscal period) / (total number of investment units issued at the end of each fiscal period)

03

Growth strategies focusing on stability

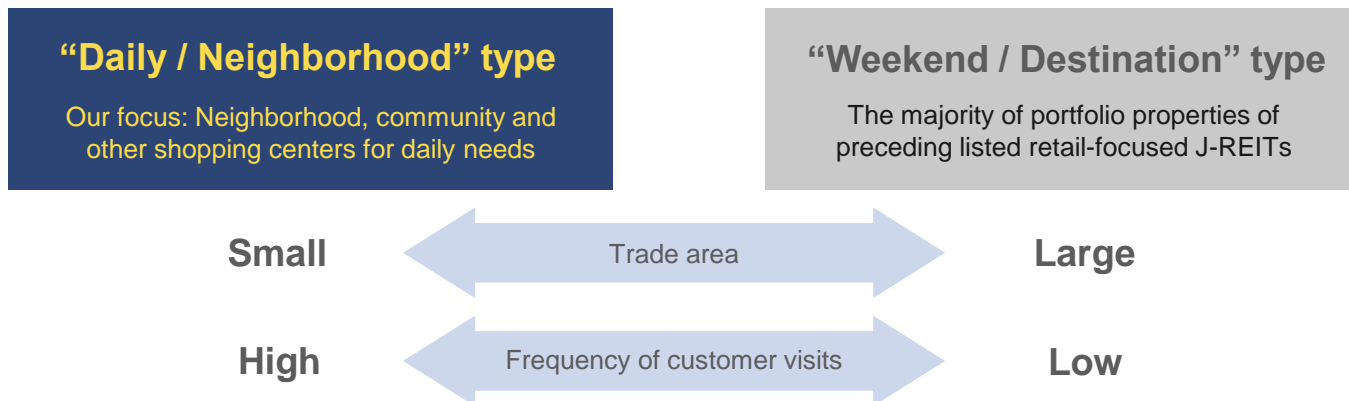

3453

Future strategy

Unchanged demand for shopping centers for daily needs that provide **products essential to the daily lives** of consumers in the surrounding areas, such as food supermarkets, drug stores, and home & garden.

Continue focused investments in shopping centers for daily needs, which has been carried out consistently since the listing, even after the end of the spread of COVID-19

Continue selective investments in retail distribution centers that meet the demand from e-commerce

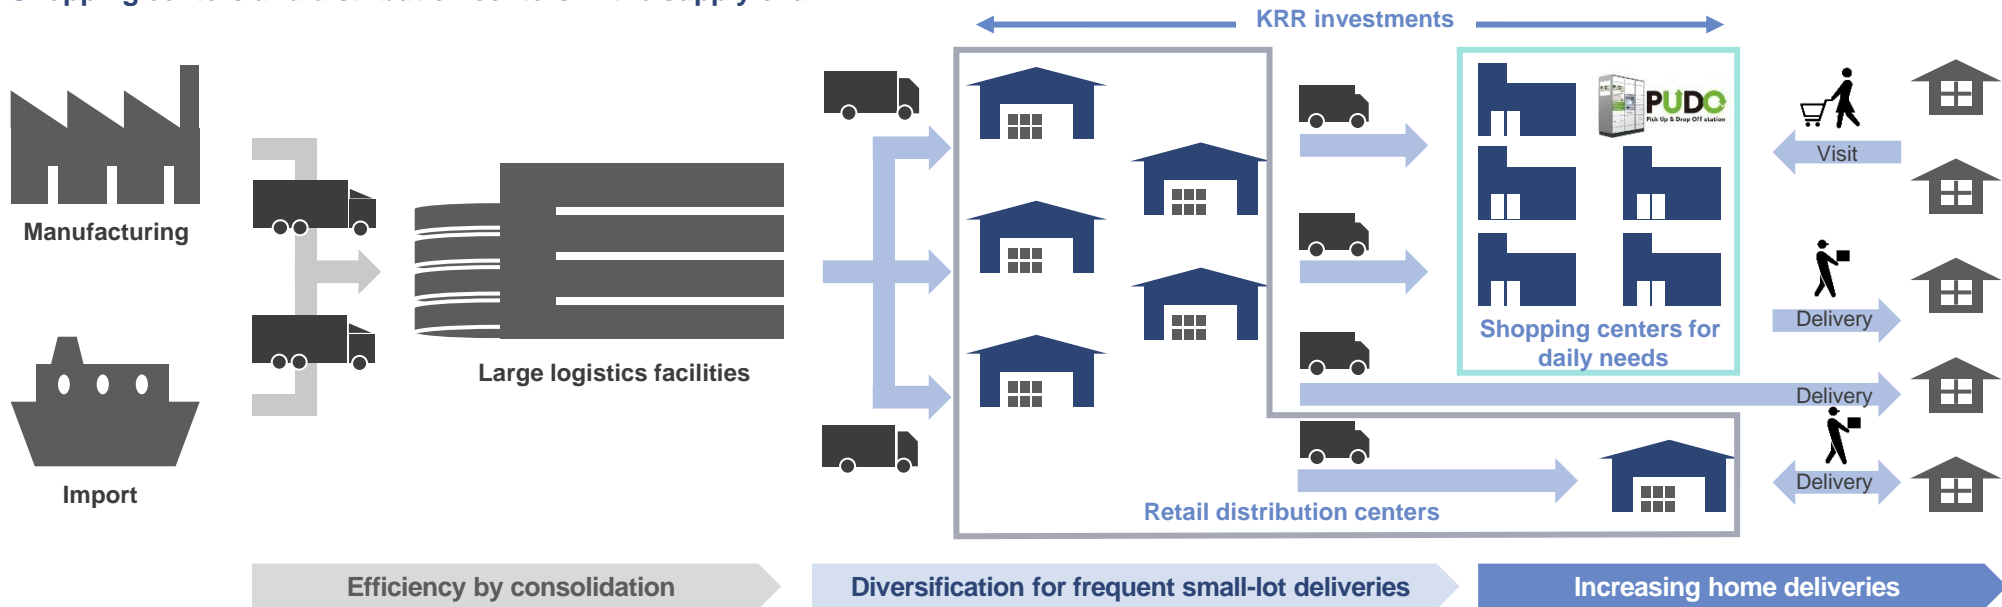

Sustainable growth in response to the market conditions with a focus on **maximizing unitholder value**

Crisis period	Recovery period	After recovery
<p>Prevention of tenant move-out</p> <ul style="list-style-type: none"> ➤ Help sustain tenant business Given the request for business suspension reflecting the spread of COVID-19 and the state of emergency declaration, selectively grant rent reduction/deferral in consideration of the status of tenants and the impact on KRR’s operation, and aim to sustain businesses of both tenants and KRR ➤ Minimize the impact of COVID-19 Minimize the impact of COVID-19 through preventing downtime caused by move-out and bankruptcy of tenants 	<p>Increase in investment unit price</p> <ul style="list-style-type: none"> ➤ Asset reshuffle using the sponsor support and proprietary network Improve the portfolio profitability by selling properties with low NOI yield after depreciation Invest mainly in supermarkets, NSCs and retail distribution centers to adapt to changing environment ➤ Unit buyback policy Comprehensively consider unit price, NAV per unit, and use of cash on hand 	<p>AUM growth and credit improvement</p> <ul style="list-style-type: none"> ➤ Public offering Expand AUM by raising funds through public offering to enhance unitholder value ➤ Credit improvement Aim for credit rating upgrade by enhancing earnings stability through AUM growth Achieve further growth by reducing funding costs

Similar functions of retail and logistics facilities in providing customers with merchandise

Shopping centers and distribution centers in the supply chain

Changes in retail facilities with the rise of e-commerce

- Partnerships between online and brick-and-mortar retailers
- Delivery of products from retail facilities
- Pickup of products at retail facilities
- Integration of logistics and retail facilities

Challenges faced by the logistics sector with the rise of e-commerce

- Frequent small deliveries
- Shorter lead time
- Managing to last mile issue
- Needs for distribution centers close to consumption areas

Target portfolio distribution

AUM, number of tenants, number of properties

(JPY bn)

Top 5 properties (by acquisition price)

Top 10 tenants (by annual fixed rent)

Note 1: The figures on portfolio are as of Mar. 31, 2020 for the 63 properties acquired by the date of this material. "Appraisal value" and "Appraisal NOI yield" are as of Mar. 1, 2020 for Comfort Market Nishi-Magome.
 Note 2: "Appraisal NOI Yield" is calculated by dividing appraisal NOI from the latest appraisal reports by acquisition price. "NOI yield after depreciation" is based on the performance for the fiscal period ending Mar. 30, 2020.
 Note 3: "Grocery anchored shopping centers" ratio is calculated by dividing total acquisition price of grocery anchored shopping centers by total acquisition price of retail properties.
 Note 3: "Number of tenants" at listing is figure as of Sep. 30, 2014.

Acquisition of a last-mile distribution center and grocery store in a dense residential area in the 23 wards of Tokyo

Shinjuku Nishiochiai Distribution Center

Highly scarce urban distribution center for last-mile deliveries in a densely populated area

- Located in a densely-populated area in Shinjuku ward. In the vicinity of the facility, warehouse space suitable for last-mile delivery is scarce.
- The tenant is Yamato Transport Co., Ltd. (Yamato), a major delivery company. Among Yamato Transport's urban distribution centers, there are only a limited number of centers with truck yards, and there are few facilities with such truck yards in the vicinity. Therefore, it is considered to be an important facility for Yamato Transport Co., Ltd.

Location	Shinjuku ward, Tokyo
Acquisition price	JPY 810 mn
Appraisal value	JPY 815 mn
Appraisal NOI yield	4.3%
Acquisition date	Jan. 10, 2020

Comfort Market Nishi-Magome

A new-format grocery supermarket adjacent to Nishi-magome Station, convenient for commuting to central Tokyo

- This property is a grocery supermarket located in Ota ward, Tokyo, with high growth in both population and households. The single-tenant Comfort Market offers a wide range of products in a compact space
- This property is located close to Nishi-magome Station on the Toei Asakusa Line, making it convenient to commuters and neighbors, and is highly visible, being located along National Road 1
- Comfort Market is a new-format grocery supermarket based on the concepts of "convenient and abundant", introducing a convenient store layout and self-checkout machines, and providing a useful and plentiful lineup that includes high quality products and original quick-preparation meal kits
- There is a nursery school on the upper floor, which is convenient for families with young children

Location	Ota ward, Tokyo
Acquisition price	JPY 1,920 mn
Appraisal value	JPY 2,000 mn
Appraisal NOI yield	4.4%
Acquisition date	Apr 15, 2020

K's Denki Shin-Moriyama (Land)

Location	Moriyama-ku, Nagoya, Aichi
Disposition price	JPY 1,527 mn
Book value	JPY 1,390 mn
Buyer	Nippon Commercial Development Co., Ltd.
Disposition NOI yield	3.9%
Disposition date	Sep 30, 2020

Note 1 : Appraisal value are as of March 31, 2020 for Shinjuku Nishiochiai Distribution Center and as of March 1, 2020 for Comfort Market Nishi-Magome.

Note 2 : Appraisal NOI yield is calculated by dividing the appraisal NOI (annual amount) of the property as on latest appraisal report by the acquisition price for the property.

Disposition NOI yield of anticipated disposition property is calculated by dividing the appraisal NOI of the anticipated disposition property as on March 31, 2020 by the anticipated disposition price.

Note 3 : Book value is as of March 31, 2020.

Leasing overview (1)

Multi-tenant properties (by acquisition prices)

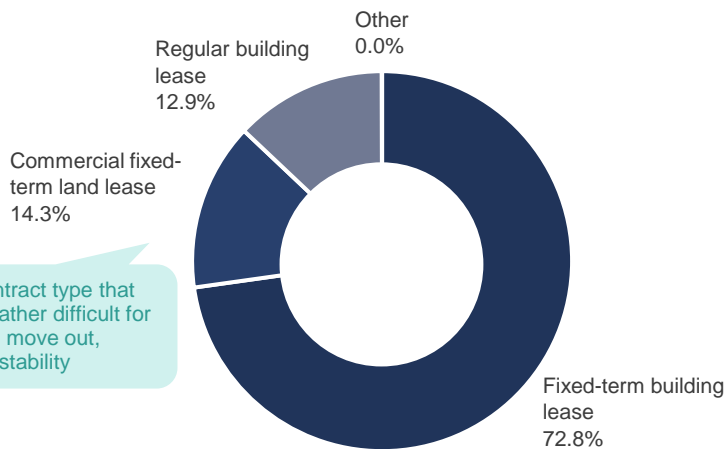

There are various rent types even with single tenant properties. Most are long-term leases, and some have potential for increase in rent and hedge against inflation

Remaining lease term (by annual fixed rent)

Lease contract type (by annual fixed rent)

Lease contract type that makes it rather difficult for tenants to move out, providing stability

Percentage of tenant categories (based on rents)

Tenants less affected by e-commerce

Note 1: The figures are as of Mar. 31, 2020, based on the 63 properties acquired by the date of this material.

Note 2: Based on the contractual rent determined in the lease contract, including regular building leases.

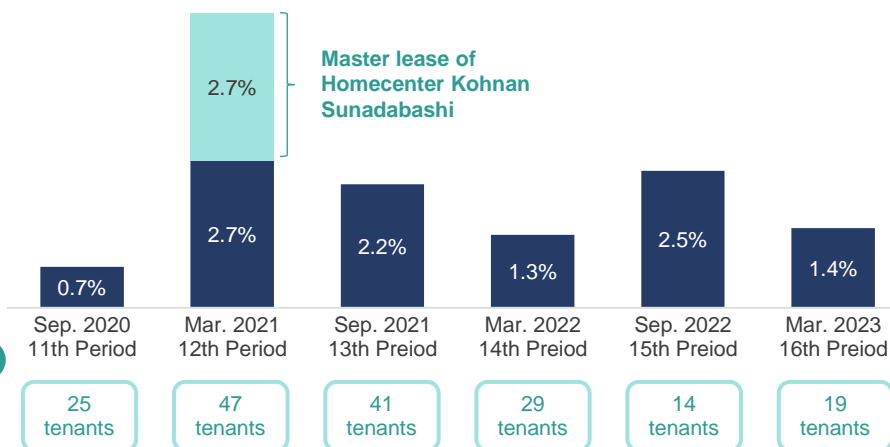

Note 3: "Master lease" indicates tenants where the lessee does not occupy and subleases to a retailer. "Interest/CPI-linked" indicates tenants whose rent contract renews accordingly to the interest rate or CPI.

Rent revisions (based on number of revisions)

Lease expiry (by annual fixed rent)

of tenants and % of lease expiry in each period (Note 2)

Tenant move-in and move-out (Note 3)

Contract renewals at lease expiry in each period (Note 3)

Note 1: Based on the rent including common area charges before revision of the tenants subject to rent revision.
 Note 2: Based on the contractual rent determined in the lease contract, including regular building leases, for properties owned as of Mar. 31, 2020.
 Note 3: Based on the rent revenue of the last month of each fiscal period.

Examples of internal growth initiatives

Tenant reshuffling and rent increases

Passaggio Nishiarai

- Reshuffled tenants by consolidating the eyeglass store area, which used to have a fixed plus commission contract, and the women's clothing shop area, which had a short-term contract, into a single area.
- KRR have signed a 10-year long-term lease agreement with the successor tenant, a grocery store, with a fixed rent, scheduled to open in late June 2020
- Contributing to improved portfolio quality and stability through long-term fixed rent contracts with KRR's focus on grocery store
- Rent increase for the total space

Blumer HAT Kobe

- As the rent level of the former tenant occupying a large lot under a sales-linked rent contract was lowered, replaced tenant prior to expiration of the contract through negotiations
- Concluded a fixed-rent lease agreement with the succeeding tenant Edion Corporation, opened in late November 2019
- Rent increase compared to the actual sales-linked rent of the former tenant

Property expansion on the underutilized space

Yokohama Kamigo Distribution Center

Assumed construction (expansion) of new building (restaurant building) on the acquired land

Planned schedule	NOI increase	NOI yield
Dec. 2019 Execution of contract for the transfer of status and rights in relation to the construction of the New Building	JPY 17 mn	13.9%
Feb. 2020 Construction starts	Gross floor area	Construction costs
Sep. 2020 Completion and transfer of the New Building	349.26m²	JPY 123 mn

Unicus Ina

Spent total operating expenses of JPY 95 mn, constructed (expanded) new building (restaurant building) in the area, and additionally acquired in January 2017

Construction cost	Enhancement in profitability	High investment return	Increase in asset value
Total project cost JPY 95 mn	NOI Increase JPY +11 mn	Increased NOI yield +12.0%	Increase in appraisal value JPY +240 mn

Distribution in excess of retained earnings (JPY mn)

Summary of distributions in excess of retained earnings

As Japanese tax law changes, distributions in excess of retained earnings that are accounted as allowance for temporary difference adjustment ("ATA") enables cash distributions to be treated as profits distribution and deductible for tax purpose

A: Japanese GAAP vs. Japanese tax law

The items in association with certain transaction in relation to the property, Sunny Noma, cause temporary difference between the treatment in Japanese GAAP and Japanese tax law. **As a result, taxable income before distribution was larger than net income**

B: Net income vs. income in accordance with Investment Trust Act

The item deducted from net asset in association with some of interest swap transaction causes difference between net income and income defined by Investment Trust Act ("ITA"). **As a result, net income was larger than income defined by ITA**

Note: The borrowing Series 24-A on Sep. 28, 2018 is included in short-term borrowings.

Financial highlights (2)

Breakdown of debt outstanding by lender and investment corporation bonds

Investment corporation bonds

Bond	Amount of issuance	Rate	Issuance date	Term
1st Series	JPY 1,000 mn	0.20%	Oct. 2016	5 yrs.

Installation of solar panels at Kawamachi Yahagi Mall

Profitability

NOI yield (Note 1) **11.0%**
 NOI increase (Note 2) **JPY 4.2 mn**

Investment **JPY 39 mn**

CO2 reduction (Note 2)

Annual CO2 reduction **146.4 t =**
 Annual CO2 absorption **10,455 Japanese cedar**

BCP

During a power outage, the electricity generated can be used as a power source for PCs or for recharging mobile phones (only during daytime power generation), contributing to the BCP response of the facility

Planned schedule (Note 3)

Mar. 2020 Execution of contract
 Jun. 2020 Installation begins
 Jul. 2020 Completion of installation and beginning of power supply

Agreement of green lease at Blumer HAT Kobe

Installed LEDs into parking lots and concluded green lease agreements with parking lot management company

Investment cost	Estimated annual electricity bill reduction	Annual green lease fee	Investment return
JPY 4.9 mn	JPY -1.9 mn	JPY +1.2 mn	Approx. +25%

Social initiatives

Collaboration with local communities

We entered into agreements with Yoshikawa City, Ina Town can be used as a temporary shelter at times of emergency. In March 2020, we signed a new agreement with Konosu City

Supporting Japan for UNHCR

We support the activity of Japan for UNHCR (United Nations High Commissioner for Refugees) by providing common areas of our properties for their fund-raising campaign

Local events at our properties

We are making efforts to enliven local communities by holding community-participating events at our properties

Note 1: Based on the estimated reduction costs based on the estimated amount of power generation from solar equipment suppliers, divided by the investment to install the solar panels.
 Note 2: Based on the assumption by the solar equipment supplier. The figures are calculated by converting CO2 emission reductions into CO2 absorption by a 50-year-old Japanese cedar.
 Note 3: Schedule may be delayed or suspended due to unexpected factors.

The Kenedix Group's strong commitment to J-REITs

Because of the importance of the J-REIT business to the Kenedix Group, KRR's sound growth is in line with Kenedix's interests

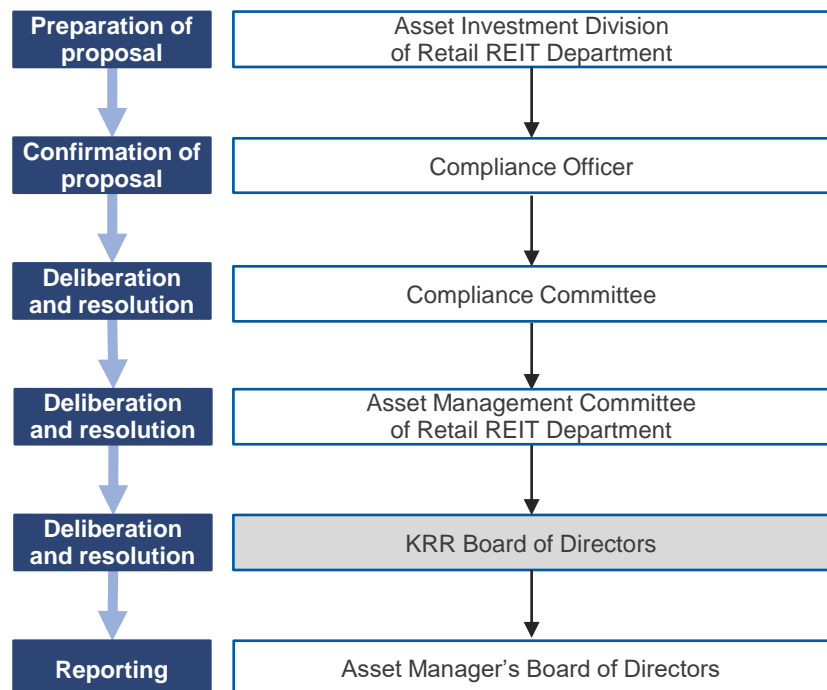

Investment in KRR by Kenedix, Inc.

(as of March 31, 2020)

Number of units owned	10,050 units	Ownership	1.9%
-----------------------	--------------	-----------	------

Decision-making process for acquisition and sale of properties (Note 1)

Note 1: Transactions within the scope of insignificance criteria are excluded from the decision-making process above.
 Note 2: Including acquisition of buildings through expansion or reconstruction.

Unitholder value-linked management fee structure

Introduction of fee structure to provide incentives to enhance unitholder value

	Method for calculation		
	Subject of calculation	Rates	
Asset management fee	I	Total assets	0.27% (annual rate)
	II	Net income × DPU	0.0013%
Investment unit performance fee	KRR's excess return × Market capitalization		0.1%
Acquisition fee (Note 2)	Acquisition price		1.0%
Disposition fee	Disposition price		0.5%
Merger fee	Appraisal value of assets to be succeeded		1.0% (maximum)

Investment unit performance fee calculation for 10th FP

KRR's excess return against TSE REIT Total Return Index (Sep. 30, 2019 to Mar. 31, 2020)

KRR's total return: -41.20%
 TSE REIT Total Return Index: -25.33%
 KRR's total return < TSE REIT Total Return Index
 → In this case, there is no performance fee

Key characteristics of KRR

Security Code

3453

Investments focusing on shopping centers for daily needs

“Daily / Neighborhood” type

Our focus: Neighborhood, community and other shopping centers for daily needs

“Weekend / Destination” type

The majority of portfolio properties of preceding listed retail-focused J-REITs

Small

Trade area

Large

High

Frequency of customer visits

Low

Property types		Characteristics	Trade area
NSC	Neighborhood shopping centers	Shopping centers with a supermarket as an anchor or core tenant	3-5km
SM	Supermarkets	Stand-alone stores that primarily provide groceries	3km
CSC	Community shopping centers	Larger Shopping centers than NSC, with a supermarket as an anchor or core tenant	5-10km
Urban Station-Front		Shopping centers in the immediate vicinity of an urban public transportation station	3-10km
SS	Specialty stores	Specialty stores such as drug stores, convenience stores, health clubs or electronic appliance stores	1-10km

Large-scale suburban retail properties

RSC (Regional shopping centers)

GMS (General merchandise stores)

Stand-alone GMS is excluded from our investment criteria

Outlet malls

Urban retail properties featuring

High-end brand shops

Primary characteristics of shopping centers for daily needs

Location Located within residential areas of a metropolitan commuter district

- Retail trade area population ^(Note)
 - 1km radius: 10,000 people
 - 3km radius: 62,000 people
 - 5km radius: 247,000 people

Tenants Providing primarily daily necessities

- Housing Yaoko, a grocery supermarket, as the anchor tenant and a group of specialty stores

An anchor tenant with strong ability to attract customers

A group of specialty stores selected to satisfy the various needs of local residents (including apparel stores, drug stores, restaurants, a dollar shop and a dentist)

Facilities Capacity to accommodate frequent customer visits and provide revenue upside potential

- Flat parking lot to accommodate approximately 480 vehicles
- Constructed a restaurant building on underutilized space

Expansion building

Expansion building	Restaurant building
Acquisition date	Jan. 16, 2017
GFA	397.98 m ²
Total construction cost	JPY 91 mn

Note: Populations in each radius are calculated based on the 2015 national census.

Retail market trends: GMS vs. Specialty stores

Buying goods at GMS

2007		(JPY bn)
	Type of store	Sales
1	Supermarket	12,961.0
2	GMS	8,602.1
3	Department store	8,283.1
4	Convenience store	7,413.9
5	Other retailers	5,743.7
6	Consumer electronics	5,719.1
7	Drug store	3,692.2
8	Apparel	3,177.7
9	Home and garden	2,835.6
10	Consumers' co-operative	2,487.0

Buying goods at specialty stores

2019		(JPY bn)	
	Type of store	Sales	Change
1	Supermarket	16,507.6	+27.4%
2	Convenience store	10,969.5	+48.0%
3	Drug store	8,683.9	+135.2%
4	Other retailers	7,415.1	+29.1%
5	GMS	7,111.3	-17.3%
6	Apparel	5,969.0	+87.8%
7	Department store	5,889.9	-28.9%
8	Consumer electronics	5,561.1	-2.8%
9	Home and garden	3,436.1	+21.2%
10	Consumers' co-operative	2,390.4	-3.9%

Potential rental upside upon tenant replacement or contract renewal

Upside potential

Limited frequency of upward rent revisions

Property expansion leveraging underutilized space

Relatively easy

Tenant replacement

Relatively difficult

Expanding market share

Potential for investment

A number of stand-alone GMSs owned by real-estate funds exited the market

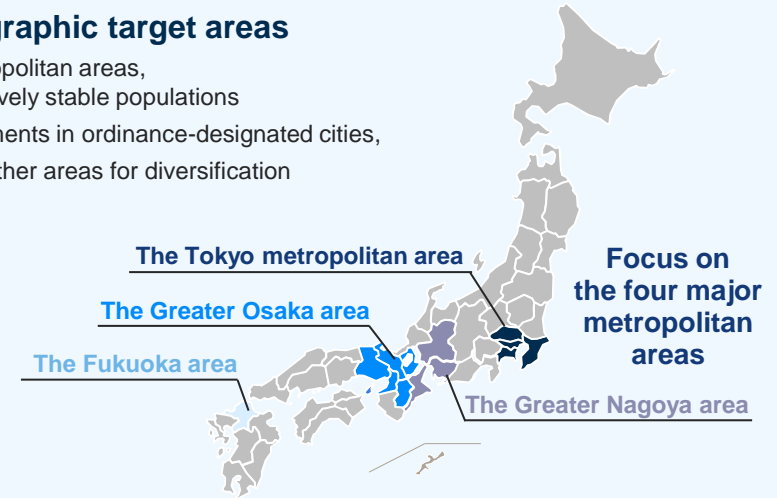

Investment criteria

Focus on the following four elements in making investment decisions:

Attractiveness	Location
<ul style="list-style-type: none"> Ability to serve particular day-to-day needs of local area customers 	<ul style="list-style-type: none"> Demographic composition, number of households, competing facilities in local retail trade area
Profitability	Tenant mix
<ul style="list-style-type: none"> Occupancy, leasing status, rent level and lease term 	<ul style="list-style-type: none"> Optimal tenant mix for the property considering tenant credit profiles and retail space usage

Primary geographic target areas

- Four major metropolitan areas, which have relatively stable populations
- Selective investments in ordinance-designated cities, core cities and other areas for diversification

Target portfolio distribution (based on acquisition price)

Distribution centers
Other retail facilities
20% or less

Investment in land - Seeking additional growth opportunities

We also seek investment opportunities in the underlying land of retail properties and distribution centers

- Strong demand from retail tenants (the majority of buildings on land-only properties held by J-REITs are retail facilities)
- Maintain maximum value upon termination of lease term, as the land is expected to be returned in its original state
- Investment in lands would be limited to 20% of the portfolio (based on acquisition price) as our general policy

Beneficial relationship for both Asset Manager and tenants

Advantages to Asset Manager

- Generation of long-term stable rents due to a decrease of vacancy risks because tenants will own buildings pursuant to fixed-term land lease agreements
- Stabilization of rent revenue as tenants will pay maintenance costs related to the buildings on such land
- Improvement of payout ratio as depreciation costs of buildings are borne by tenants
- Limited downside risk related to their asset value caused by external factors, such as fires

Advantages to tenants

- Tenants that are both the lessee and property owner bear a smaller financial burden when opening a store
- Increased capital efficiency through treatment of land as off-balance sheet
- Simplified procedures for interior renovation of buildings

Note: Target areas for distribution centers include locations near expressways or major public highways and easy access to a major metropolitan area or an ordinance-designated city and core city.

Retail property trends and macroeconomic conditions (1)

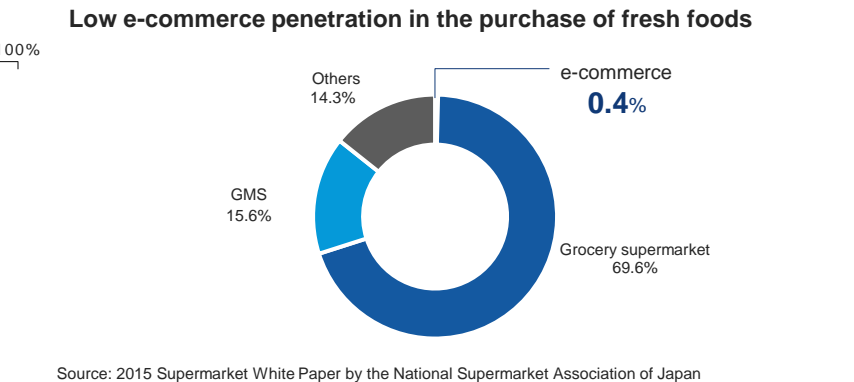

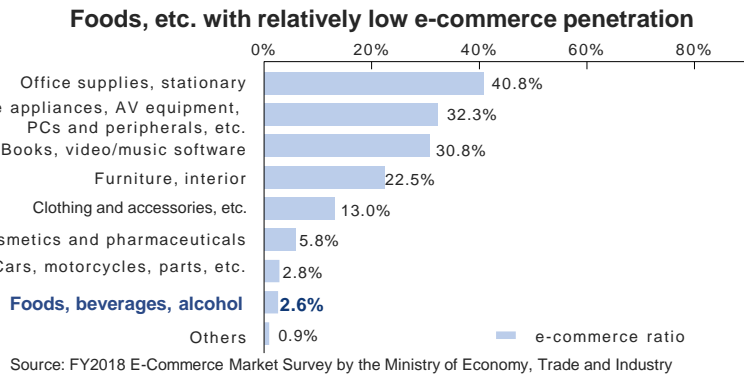

Shrinking retail trade area due to aging and concentrating population in Japan

Changing retail facilities

Shopping centers for daily needs are highly resistant to e-commerce

Note 1: The figures are as of Mar. 31, 2020. "Appraisal value" and "Appraisal NOI yield" are as of Mar. 1, 2020 for Nishi-Magome.

Note 2: The following formula is used to calculate appraisal NOI yield of Kamigo.

Appraisal NOI yield = Appraisal NOI as stated in the real estate appraisal report for Kamigo with March 31, 2020 as the appraisal date / (Acquisition price + estimated construction cost of the restaurant building (123,015,000 yen) as of the date of this material)

Appraisal value (properties as of Mar. 31, 2020) (1)
