(2) Operating Conditions

- ① Operating Conditions for the fiscal period under review
 - A. The Investment Corporation

The Investment Corporation was established on May 6, 2005 in accordance with the Act on Investment Trusts and Investment Corporations (Act No. 198 of the year 1951, including amendments thereafter) ("Investment Trust Act"). On July 21, 2005, the Investment Corporation was listed on the Real Estate Investment Trust Market of the Tokyo Stock Exchange, Inc. ("the Tokyo Stock Exchange") with a total of 75,400 investment units issued and outstanding (Securities Code: 8972). Subsequently, the Investment Corporation raised funds through public offerings and including seven global offerings. As a result, as of the end of the fiscal period under review, the number of investment units issued and outstanding totaled 404,885 units.

The Investment Corporation entrusts the Asset Management Company with its asset management and strives to maximize unitholder profits by securing stable earnings and sustainable growth of investment assets. To this end, the Investment Corporation adopts the basic policy of conducting flexible and dynamic investment stance that seeks to respond to its environment and market trends, and endeavors to ensure a timely response to opportunities.

B. Investment Environment and Management Performance

(a) Investment Environment

During the fiscal period under review (fiscal period ended April 30, 2018), the real GDP growth of the Japanese economy from January to March 2018 (the Second Preliminary Estimates) showed an annual 0.6% decrease, a negative growth not seen for 9 quarters, or 2 years 3 months. The reasons for this include the temporary bearish tendency of capital investment that had seen a continued mild recovery, and the leveling of personal consumption that was steadily increasing. Although the real GDP growth rate may indicate a cessation in the recovery of the Japanese economy, the growth of the global market and the bullish trend of domestic demand suggests otherwise.

In terms of the office leasing market, demand for relocations for expanded floor area and better location choice continued to be strong in the five central wards of Tokyo, leading to a continuous decline in the average vacancy rate and rise in the rent level. The average vacancy rate in Tokyo's five central wards at the end of April 2018 announced by Miki Shoji Co., Ltd. was 2.65%: down 0.74 point year-on-year and down 0.37 point compared with the end of the previous fiscal period (ended October 31, 2017). In addition, the average rent in Tokyo's five central wards (including newly-built office buildings) has also been increasing for 52 consecutive months since January 2014, reaching 19,896 yen per tsubo for the first time since July 2009. The average vacancy rate of other major cities across Japan also continued to show a decrease in average vacancy rate and an increase in rent levels.

In the office building transaction market, domestic investors such as listed J-REITs, private REITs and real estate companies, and overseas investors continued to show a strong appetite for property acquisitions. Due partially to the ongoing competitive acquisition environment for prime properties, the cap rates continuously remain at low levels and transaction prices continue to remain high.

(b) Management Performance

As of the end of the previous fiscal period (fiscal period ended October 31, 2017), the Investment Corporation owned 98 properties (with a total acquisition price of 392,968 million yen) and equity interest in a Japanese silent partnership (tokumei kumiai) ("TK") (acquisition price of 1,107 million yen). During the fiscal period under review (fiscal period ended April 30, 2018), the Investment Corporation acquired two office buildings (Mitsubishijuko Yokohama Building: acquisition price of 14,720 million yen, JN Building: acquisition price of 9,500 million yen) and sold one residential property (Residence Charmante Tsukishima: acquisition price of 5,353 million yen), two office buildings (KDX Ikejiri-Oohashi Building: acquisition price of 2,400 million yen, KDX Shin-Yokohama 214 Building: acquisition price of 2,200 million yen).

As a result, the number of properties owned as of April 30, 2018 (excluding the TK interest, same applies below.) amounts to 97 (with a total acquisition price of 407,235 million yen). Looking at the portfolio distribution by property types, 96.9% was comprised of office buildings, 2.4% of central urban retail properties and 0.7% of others property on an acquisition price basis.

The occupancy rate as of the end of the fiscal period under review(ended April 30, 2018) was 99.0% and continuously maintained a high occupancy rate.

Operation and Management of Existing Properties

The Investment Corporation entrusts property management services for its entire portfolio as of the end of the fiscal period under review (fiscal period ended April 30, 2018) (excluding ARK Mori Building and Shinjuku 6chome Building (Land)) to Kenedix Property Management, Inc. By doing so, the Investment Corporation has strived to unify policies, specifications, procedures, points of contact, etc. for the provision of swift and quality services in the operation and management of properties.

In terms of leasing, in light of the trends of the economy and real estate market, the Investment Corporation proactively attracted new tenants with its close relationships with brokers and absorbed demands to expand floor space by utilizing the close relationships with existing tenants. Moreover, in order to maintain and raise the competitiveness of office buildings, repair of common areas, upgrading of air conditioning systems, renewal of elevators, etc. were implemented according to plan.

Consequently, as of the end of the fiscal period under review (fiscal period ended April 30, 2018), the occupancy rate of the Investment Corporation owned office buildings in the Tokyo Metropolitan Area stood at 99.2%, an increase of 0.2 point compared with the end of the previous fiscal period (fiscal period ended October 31, 2017), and increased by 0.1 point to 99.1% for the Investment Corporation's office buildings overall, continuously maintaining a high occupancy rate that exceeds the level of the end of the previous fiscal period ended October 31, 2017).

The Investment Corporation proactively negotiated with tenants that pay rents lower than market rent level among those reaching rent revision periods for upward rent revisions, and the number of upward rent revisions increased in two consecutive periods.

Stable Management through Large Number of Tenants and Tenant Diversification by Sector

The number of end-tenants for the Investment Corporation's office buildings was 1,123 (Note 1) (Note 2) as of the end of the fiscal period under review (fiscal period ended April 30, 2018), diversifying tenant's stratum further. Furthermore, floor area leased to the top 10 office end-tenants as a proportion of total leased floor area of the entire portfolio was 10.5%. In addition, tenants of office buildings are in various sectors. As a result, we believe the impact by a certain end-tenant vacating the property or sluggish performance in certain sectors would have a relatively limited effect and will be able to maintain stable revenue.

Note 1: When a tenant is leasing more than one property, it is counted as one tenant and the number of tenants is indicated accordingly. Note 2: The number of end-tenants for the entire portfolio is 1,135 as of the end of the fiscal period (fiscal period ended April 30, 2018).

C. Capital Financing

(a) Status of Borrowings

The Investment Corporation will continue to strive to reduce refinancing risk by diversifying maturity dates for its interest-bearing debt. During the fiscal period under review (fiscal period ended April 30, 2018), the Investment Corporation undertook new borrowings of 12,000 million yen and used 750 million yen of cash on hand for the repayment of 12,750 million yen that matured during the fiscal period, and newly borrowed 7,000 million yen at property acquisitions. As a result, the balance of interest-bearing debt as of April 30, 2018 is 185,850 million yen, comprised of 178,050 million yen in borrowings (6,000 million yen in short-term borrowings (Note 1) and 172,050 million yen in long-term borrowings (Note 1)) and 7,800 million yen in investment corporation bonds, and the interest-bearing debt ratio (Note 2) is 43.9%.

Furthermore, as of the end of fiscal period under review (fiscal period ended April 30, 2018), interest rates for 115,300 million yen out of 116,800 million yen of long-term borrowings with floating interest rates, have been practically fixed by utilizing interest-rate swap agreements, etc. in order to hedge risk of rise in the interest rate. In addition, the long-term debt ratio (Note 3) was 96.8% and the long-term fixed interest debt ratio (Note 4) was 96.0%.

In addition, the Investment Corporation lengthened the average remaining term of its interest-bearing debt (Note 5), the weighted average based on the balance of interest-bearing debt at the end of each fiscal period, from 5.0 years at the end of the twenty-fifth fiscal period (fiscal period ended October 31, 2017) to 5.2 years at the end of the fiscal period under review (fiscal period ended April 30, 2018). Furthermore, the average interest rate (Note 5) was reduced from 1.10% to 1.07% during the same period, demonstrating a steady reduction of financial costs.

Note 1: Short-term borrowings refer to borrowings with a period of less than or equal to one year from the drawdown date to the repayment date. However, the borrowings whose period until repayment date have surpassed one year because the repayment date one year from the drawdown date is not a business day and for which the repayment date has been moved to the following business day are included in short-term borrowings. Long-term borrowings refer to borrowings with a period of more than one year from the drawdown date to the repayment date. The same classification criteria apply to other borrowings listed below.

Note 2: Interest-bearing debt ratio = Balance of Interest-bearing debt at the end of fiscal period / Total assets at the end of fiscal period $\times 100$

Note 3: Long-term debt ratio= (Balance of long-term borrowings + Balance of investment corporation bonds) / (Total borrowings + Balance of investment corporation bonds) ×100

Long-term debt ratio is rounded to the nearest first decimal place.

Note 4: Long-term fixed interest debt ratio = (Balance of long-term fixed interest rate borrowings + Balance of investment corporation bonds) / (Total borrowings + Balance of investment corporation bonds) $\times 100$

The balance of long-term fixed interest rate borrowings includes long-term borrowings with floating interest rates effectively fixed by utilizing interest-rate swap agreements and excludes long-term borrowings hedged by interest-rate cap agreements. Long-term fixed interest debt ratio is rounded to the nearest first decimal place.

Note 5: Average remaining terms and average interest rates are the weighted average of the period-end remaining terms and interest rates including upfront fees based on the balance of interest-bearing debt. Average remaining terms are rounded to the nearest first decimal place and average interest rates are rounded to the nearest second decimal place respectively.

Note 7: MUFG Bank, Ltd. has changed its company name from "The Bank of Tokyo Mitsubishi UFJ, Ltd." on April 1, 2018.

Note 8: Due to the absorption-type demerger of Mitsubishi UFJ Trust and Banking Corporation (the splitting company) and MUFG Bank, Ltd. (the successor company) on April 16, 2018, the loan debt of Mitsubishi UFJ Trust and Banking Corporation has been succeeded by MUFG Bank, Ltd.

(b) Status of Credit Rating

The status of the credit ratings as of the end of fiscal period under review (April 30, 2018) is as follows:

| Credit Rating Agency | Details of the Ratings | | | |
|--|--|-----------------------|--|--|
| | Long-Term Issuer Rating | AA- (Outlook: Stable) | | |
| Japan Credit Rating Agency, Ltd. (JCR) | Ratings on Bonds Preliminary Rating of Shelf Registration | AA- | | |

(c) Status of Shelf Registration

The Investment Corporation filed a shelf registration statement for investment corporation bonds (excluding short-term investment corporation bonds) on January 30, 2017. Details are as follows.

| Planned Issue Amount | 100,000 million yen |
|-------------------------|---|
| Planned Issuance Period | February 7, 2017 to February 6, 2019 |
| Use of Funds | Acquisition funds for specified assets that are meant in Article 2-1 of Investment Trust Act, repayment of borrowings, repayment of investment corporation bonds (including short-term investment corporation bonds), refund of lease and guarantee deposits, funds to pay for repairs and maintenance, working capital, etc. |

The Eighth Series Unsecured Investment Corporation Bonds of 1,000 million yen and the Ninth Series Unsecured Investment Corporation Bonds of 2,000 million yen were issued based on the above shelf registration statement on July 19, 2017.

D. Operating Results and Cash Distribution

As a result of the aforementioned management performance, the Investment Corporation reported operating revenues of 14,823 million yen, operating income of 6,848 million yen, ordinary income of 5,829 million yen and net income of 5,828 million yen for the fiscal period under review (fiscal period ended April 30, 2018).

Concerning the cash distributions for the fiscal period under review, special taxation measures for investment corporations (Article

KENEDIX OFFICE INVESTMENT CORPORATION (8972)

67-15 of the Act on Special Measures Concerning Taxation (Act No. 26 of the year 1957, including amendments thereafter; "the Special Taxation Measures Act")) are applied based on the cash distribution policies stipulated in the Articles of Incorporation. In addition, the Investment Corporation has decided to use a portion of its unappropriated retained earnings booked as a reserve for reduction entry under internal reserve based on application of the "Special Provisions for Taxation in the Event of Advance Acquisition of Land, etc. in 2009 and 2010" (Article 66-2 of the Special Taxation Measures Act). Based on this policy, the entire amount after deducting 581 million yen that applies within both Article 67-15 and Article 66-2 of the Special Taxation Measures Act as a provision of reserve for reduction entry from unappropriated retained earnings was distributed. Therefore, the distributions per unit resulted in 12,960 yen.

② Outlook for next fiscal period

A. Investment Environment

Although future Japanese economy is expected to see a slowdown in growth, the growth of the global market and the bullish trend of domestic demand suggest moderate recovery. On the other hand, careful attention should be paid to uncertainties concerning overseas economies and politics including the rise of policy interest rate in U.S. and trends in the U.S. administration's policy management and such. Even in Japan, it will be necessary to pay close attention to various events such as the impact of the interest rate hike in the U.S. on domestic interest rates, the trend of the "quantitative and qualitative monetary easing involving control over long-and short-term interest rates" policy that accompanies negative interest rates, and concerns over geopolitical risks.

Concerning the office leasing market, the average vacancy rate in Tokyo's five central wards at the end of April 30, 2018 announced by Miki Shoji Co., Ltd. was 2.65%, and therefore the vacancy rate shows a downward trend and the demand remains steady. Along with the decline in the vacancy rate, the average rent in Tokyo's five central wards has been on a rising trend.

In the office building transaction market, although some point out the overheated state, the generally intense acquisition market is forecasted to continue with investors such as listed J-REITs, private REITs, domestic real estate companies and foreign investors bearing a strong appetite for acquisitions, backed by the favorable financing environment owing to the Bank of Japan's monetary easing measures.

On the other hand, the outstanding bank loans for the real estate industry have reached a record high, and therefore it should be necessary to pay careful attention to changes in banks' policies on loans. Furthermore, careful attention should also be paid to the perplexing state of the J-REIT market with positive trends such as continuing on-balance buying of J-REIT investment units by overseas investors, but also negative trends such as the market price struggling to rise due to the deterioration in the supply and demand balance with the frequent public offerings since the beginning of 2018.

B. Future Management Policies and Pending Issues

The Investment Corporation adopts the basic policy of conducting flexible and dynamic investment stance that seeks to respond to its environment and market trends, and endeavors to ensure a timely response to opportunities. Based on this policy, the Investment Corporation creates a property investment strategy, management strategy for existing properties, and financial strategy as set forth below and implements them in a flexible and dynamic manner.

(a) Management Policy

On December 1, 2017, the Asset Management Company has decided to change the definition of classification by use in "Office Buildings", "Central Urban Retail Properties" and "Others" that the Investment Corporation is investing in, and exclude "Residential Properties" from investment targets and eliminate the provisions on investment in "Residential Properties" in the Company Regulations (Management Guidelines of Office REIT Department). The definition of classification by use in "Office Buildings", "Central Urban Retail Properties" and "Others" shall be changed as follows.

| Office Buildings | Main buildings as components of properties, with floor area whose uses under the Building Standards Act include office, or |
|---------------------------------------|---|
| , , , , , , , , , , , , , , , , , , , | assets underlying them |
| Central Urban | Retail properties with high tenant substitutability located in highly bustling districts (5 Central Wards of Tokyo (Chiyoda-ku, |
| Retail Properties | Chuo-ku, Minato-ku, Shinjuku-ku and Shibuya-ku in Tokyo 23 wards) or central parts of government-designated cities; the |
| L L | same shall apply hereinafter.) that do not fall under the category of Office Buildings, or assets underlying them |
| | Land with third-party leasehold (limited proprietary right of land) or buildings that have floor area whose uses under the Building |
| Others | Standards Act are not subject to investment in accordance with the Investment Corporation's investment policy and that do not |
| | fall under the category of Office Buildings or Central Urban Retail Properties, or assets underlying them |

Note: The Investment Corporation shall not invest in residential properties, logistics and warehouse facilities, amusement parks, medical, nursing and health care-related facilities and golf courses. However, if they are included in Office Buildings, Central Urban Retail Properties and Others that the Investment Corporation invests in or the Investment Corporation invests in these properties pertaining to such assets, this shall not apply.

(b) Investment Strategy for Property Acquisitions and Sales Policy

The Investment Corporation aims for further expansion of its asset size, with the goal of "forming a firm portfolio focusing on midsized office buildings" and to become the "No. 1 J-REIT for mid-sized office buildings." The Investment Corporation will keep midsized office buildings in the Tokyo Metropolitan Area as its focus, and with regard to central urban retail properties, invest only in those that have rare value as an alternative to office buildings, are located in busy commercial areas and offer a certain amount of office space. In addition, the Investment Corporation believes that maintaining an investment strategy which aims for a certain degree of regional diversification, will be a foundation for constructing a superior portfolio and differentiating the Investment Corporation from others in the business.

Moreover, when acquiring assets, the Investment Corporation will aim for the sound and stable growth of the portfolio, by securing continuous opportunities for acquiring properties and flexible acquisition methods by utilizing the Asset Management Company's own networks and the sponsor company's support line through building multiple pipelines. Also, based on the premises of that the Investment Corporation able to obtain opportunities for property acquisitions in the future, the Investment Corporation might invest in TK interests etc. with the sponsor company on a conjoint basis. In addition, the Investment Corporation seeks to diversify acquisition methods (direct acquisition, equity investment and co-acquisition with the sponsor company, mutual transaction with a view of asset reshuffle, etc.) to secure tactful acquisition of properties such as investments in warehousing related TK etc. in cooperation with the sponsor company with consideration to the timing of funding or the consistency of the investment principles.

In selling properties, the Investment Corporation will examine the sale of properties individually in considering the use of funds for asset reshuffles through new property acquisition or fund-type investments. Moreover, The Investment Corporation will decide on the sale individually by considering the revenue and profitability that take into account current and future market trends, building age, area and property size, among other factors, and also in light of the significance of the property's presence in the portfolio.

(c) Management Strategy for Existing Properties

Taking into consideration economic and real estate market trends, the Investment Corporation adopts "a tenant-oriented approach which will lead to revenue" for its leasing activities with aims of ensuring a timely and flexible response as well as optimizing tenant satisfaction. Accordingly, the Investment Corporation seeks to aim to maintain / increase cash flow by offering office environments with high tenant satisfaction. Based on the aforementioned in aim to become "the mid-sized office building of the choice," the Asset Management Company undertakes asset management activities as follows:

- Take measures to maintain and raise competitiveness of properties
- · Tailor leasing management according to the market environment
- · Apply careful control of management and operating costs by taking advantage of portfolio size
- · Ensure appropriate response to relevant laws and regulations
- · Develop a proactive response to environmental issues

Take measures to maintain and raise competitiveness of properties

The Investment Corporation will implement operation and management in close contact with the actual properties and further enhance the management level. Some specific examples of the operation and management are the installation of boxes of emergency kit, automated external defibrillators (AEDs) and service delivery of public wireless LAN in consideration of business continuity plans (BCP) and its corporate social responsibilities (CSR).

Furthermore, tenants at properties are positioned as important "customers" and the perspective of customer satisfaction (CS) is applied to the management of properties. The Investment Corporation has conducted CS surveys targeting the tenants of its office buildings seven times in cooperation with J.D. Power Japan, Inc., an internationally recognized company that engages in customer satisfaction evaluation (requesting those in charge of general affairs and employees of tenants to complete a questionnaire on the hard aspects such as the building and facilities as well as on the soft aspects such as management and operation, consisting of multiple items for evaluation and open-ended questions). The comprehensive satisfaction rating results for the Seventh CS survey conducted in August 2017 are as follows.

The response of "Satisfied", "Slightly Satisfied" surpasses the result of the Sixth CS Survey conducted in August 2015.

| | Satisfied | Slightly Satisfied | Neither | Slightly Dissatisfied | Dissatisfied | Unknown |
|-------------------|-----------|-----------------------|---------|--------------------------|--------------|---------|
| Seventh CS Survey | 28% | 48% | 17% | 5% | 1% | 0% |
| Sixth CS Survey | 24% | 51% | 18% | 6% | 1% | 1% |

<Comprehensive Satisfaction Rating> (Note 1) (Note 2)

Note 1: Target respondents for the survey are the administration officers of each tenant and tenant employees. Note 2: Ratios are rounded to the nearest unit.

By conducting such surveys continuously and meeting tenant needs, the Investment Corporation is aiming to improve customer satisfaction while also maintaining and improving the competitiveness and asset value of its properties, and to further enhance profitability.

Tailor leasing management according to the market environment

The characteristics of mid-sized office buildings, which are the primary investment target of the Investment Corporation, are that tenant turnover ratios are relatively high. Therefore, in the leasing aspect, the Investment Corporation implements leasing activities in a timely and flexible manner by adopting the basic policy of endeavoring to maximize revenues for the medium- to long-term through maintaining occupancy rate, while taking into account economic and real estate market trends.

Concerning the solicitation of new tenants, the Investment Corporation strives to shorten the period of vacancy and boost the occupancy rate by implementing flexible and dynamic leasing activities through sharing information closely with leasing brokers, holding of previews, marketing directly to corporations, utilizing guarantee companies and other measures while closely watching market conditions and timing of changes going forward.

Apply careful control of management and operating costs by taking advantage of portfolio size

The Investment Corporation will carefully control the quality of property management and reduce building maintenance and operating costs by taking advantage of the portfolio size through cost reductions of building maintenance, reviews of building maintenance companies, construction bidding and procurement of facilities and equipments, etc. via bulk orders.

Ensure appropriate responses to relevant laws and regulations

The Investment Corporation will gather information on the Building Standards Act (Act No. 201 of the year 1950, including amendments thereafter) and other relevant laws and regulations and any future revisions, in a timely manner and will respond as necessary while considering legal regulations.

Develop a proactive response to environmental issues

The Investment Corporation has established the environmental policies, and promotes environment-friendly investment management operations through proactively participating in GRESB Real Estate Assessment and using certification and assessment systems by external institutions such as DBJ Green Building Certification.

In addition, the Investment Corporation is designated as a specified corporation pursuant to the Act on Rationalizing Energy Use. The Investment Corporation will research on energy saving and environmental friendliness of mid-sized office buildings, develop medium- to long-term energy saving plans and reduction targets, and proactively institute measures in terms of both hardware (buildings and facilities) and soft services (operating and management services) in an aim to ensure the simultaneous pursuit of return on investment and social benefits.

(d) Financial Strategy (Debt Financing)

The Investment Corporation continuously strives to improve the terms and conditions of existing borrowings, and aims for stable financial management by taking the following measures, etc.

- · Reduce refinance risks by diversifying maturities of interest-bearing debts
- · Have the procurement ratio of long-term fixed interest borrowings above a certain level
- Control the interest-bearing debt ratio (Note) in a conservative manner (the Investment Corporation will aim to keep the interestbearing debt ratio to total assets (LTV) at less than 45% level as a rule. However, it will also remain open to the option of increasing LTV to the upper 40% level in the event of debt financing conducted for the purpose of acquiring competitive properties or otherwise.)

Moreover, the Investment Corporation will undertake stable fund procurement based on existing favorable relations with financial institutions, especially major banks, aiming for more robust financial management. In addition, the Investment Corporation aspires to pay attention to the share of each bank and consider as appropriate the introduction of transactions with new banks based on comparison with the conditions with currently transacting banks.

Note: Interest-bearing debt ratio = Balance of interest-bearing debt at the end of fiscal period / Total assets at the end of fiscal period $\times 100$

(e) Information Disclosure

Consistent with its basic information disclosure policy, the Investment Corporation proactively engages in IR activities with the aim of promptly providing a wide range of relevant information to investors, and make revisions to the information disclosure system when needed. In specific terms, the Investment Corporation provides information through the Timely Disclosure Network System (TDnet), which is a system operated by the Tokyo Stock Exchange, as well as press releases and its website (URL: http://www.kdo-reit.com/en/).

(f) Measures for Conflict of Interest Transactions

The Asset Management Company provides asset management services to not only the Investment Corporation but also other investment corporations and real estate funds, etc. For this reason, the Asset Management Company has adopted rules on "preferential rights to study property information" when considering acquisition of properties and established a Pipeline Meeting with Compliance Officer as a member in order to provide the asset management services according to certain rules, for the purpose of preventing arbitrary allocation of the information about the sale of real estate, etc. and preventing conflicts of interest arising between the investment corporations and real estate funds, etc., which consign the management business to the Asset Management Company. As mentioned the above, the Asset Management Company is taking appropriate measures for conflict of interest transactions.

(Reference Information)

(a) Acquisition of Property

The Investment Corporation decided to acquire the following trust beneficiary interest in real estate (hereinafter may be referred to as the "Property to be Acquired") on May 14, 2018.

| Scheduled Date of Acquisition (Note 1) | Type of Specified Asset | Property Name | Location | Seller | Anticipated Acquisition Price (Millions of Yen) (Note 2) | Appraisal Value (Millions of Yen) (Note 3) |
|---|--|--------------------------------|---------------------|---|---|--|
| July 2, 2018 | Trust beneficiary interest in real estate | CROSS PLACE Hamamatsucho | Minato-ku, Tokyo | Domestic General Business Corporation (hereinafter referred to as "the Domestic General Business Corporation") (Note 4) | 20,700 | 22,400 |

Note 1: The scheduled date of acquisition is as written in the trust beneficiary interest transaction agreement.

Note 2: Acquisition costs, adjustment of property tax and city-planning tax, and consumption tax, etc. are excluded.

- Note 3: The base date for appraisal is March 31, 2018.
- Note 4: The name of the Domestic General Business Corporation is not disclosed because the Domestic General Business Corporation has not given consent for disclosure.
- Note 5: The Investment Corporation has entered into a trust beneficiary transaction agreement with the Domestic General Business Corporation regarding CROSS PLACE Hamamatsucho, the asset to be acquired, and also entered into a real estate transaction agreement with the Domestic General Business Corporation regarding one of the assets to be sold (please refer to "(b) Sale of Properties" for details), KDX Hamamatsucho Dai-2 Building, and entered into a trust beneficiary transaction agreement with the SPC composed by the Domestic General Business Corporation (hereinafter referred to as "the SPC") regarding 49.0% and 51.0% of quasi co-ownership interest in the trust beneficiary interest of Frame Jinnan-zaka, one of the assets to be sold. Based on these transaction agreements, the 3 properties will in effect be part of a mutual transaction with the Domestic General Business Corporation Group (the company group consisting of the Domestic General Business Corporation, its subsidiaries, related companies and SPCs they have composed or entrusted asset management to).
- Note 6: The trust beneficiary interest transaction agreement regarding the acquisition of CROSS PLACE Hamamatsucho falls under the category of forward commitment (contracts under which the parties sign a purchase and sale agreement in advance of the actual date on which the purchase price is paid and the property transferred over a month later and other similar contracts (including manifestation of intention, advance agreement, etc. which effectively bind on the transaction.) Our internal policies define any purchase or sale contract allowing for delivery of the property more than a month after the execution of the agreement as a forward commitment contract. Same applies below) as stipulated in the Comprehensive Guidelines for Supervision of Financial Instruments Business Operators, etc. provided by Financial Services Agency. If the Investment Corporation violates any of the provisions of the transaction agreements and then the transaction agreements are cancelled for the reason that purposes of the transaction agreements cannot be fulfilled due to such violation, the Investment Corporation shall pay a certain ratio of the anticipated acquisition price (828 million yen). However, under the transaction agreements, an obligation to pay the acquisition price is established only when the Investment Corporation completes to raise funds for acquisition of the property to be acquired through the issuance of new investment units.

(b) Sale of Properties

The Investment Corporation concluded the following trust beneficiary interest transaction agreement regarding the sale of the following real estate and trust beneficiary interests in real estate (hereinafter may be referred to as "Properties to be Sold") on May 14, 2018.

| Scheduled Date of Sale (Note 1) | Type of Specified Asset | Property Name | Location | Buyer | Total Anticipated Sale Price (Millions of Yen) | Appraisal Value (Millions of Yen) (Note 2) |
|---------------------------------------|----------------------------|---|--------------------|---|--|--|
| July 2, 2018 | Real estate | KDX Hamamatsucho Dai-2 Building | Minato-ku, Tokyo | The Domestic General Business Corporation (Note 3) | | 2,200 |

| November 1, 2018 | interest in real estate | Frame Jinnan-zaka (51.0% of quasi co-ownership interest) (Note 4) | Shibuya-ku, Tokyo | (Note 3) | | 11,100 |

Note 1: The scheduled date of sale is as written in the respective transaction agreements.

Note 2: The base date for appraisal is April 30, 2018.

- Note 3: The names, etc. of the Domestic General Business Corporation and the SPC are not disclosed because the Domestic General Business Corporation and the SPC have not given consent for disclosure.
- Note 4: The Investment Corporation has entered into the trust beneficiary interest transaction agreement regarding 49.0% of quasi coownership interest in the trust beneficiary interest of Frame Jinnan-zaka with the SPC, the date of execution of the sale of which is set on July 2, 2018. The Investment Corporation has also entered into the trust beneficiary interest transaction agreement regarding 51.0% of quasi co-ownership interest in the trust beneficiary interest of Frame Jinnan-zaka with the SPC, the date of execution of the sale of which is set on November 1, 2018. In the event that 49.0% of quasi co-ownership interest in the trust beneficiary interest transaction agreement, the Investment Corporation will jointly own the trust beneficiary interest in this property with the SPC until the remaining 51.0% of quasi co-ownership interest in the trust beneficiary interest is sold.

The aforementioned dates of execution of the sale may change upon agreement between the Investment Corporation and the SPC. Note 5: Acquisition costs, adjustment of property tax and city-planning tax, and consumption tax, etc. are excluded.

- Note 6: The anticipated sale price for each property is not disclosed because the Domestic General Business Corporation and the SPC have not given consent for disclosure.
- Note 7: The transaction agreements of real estate or the trust beneficiary interest in real estate regarding the sale of KDX Hamamatsucho Dai-2 Building and Frame Jinnan-zaka concluded with the buyers fall under the category of forward commitment. If the Investment Corporation violates any of the provisions of the transaction agreements and then the transaction agreements are cancelled for the reason that purposes of the transaction agreements cannot be fulfilled due to such violation, the Investment Corporation shall pay a certain ratio of the transaction price from which consumption taxes, etc. are excluded as penalty fees. Such penalty fees are a certain ratio of the respective sale prices as stipulated in each of the transaction agreements ranging from 5% to 20%.

(3) Risk Factors

There are no significant changes to the "Investment Risks" as described in the latest Securities Registration Statement submitted on May 14, 2018 and the disclosures are omitted.

Accordingly, the Investment Corporation does not guarantee payment of the forecasted distributions per unit.

KENEDIX OFFICE INVESTMENT CORPORATION (8972)

Preconditions and Assumptions for the Twenty-seventh Fiscal Period Ending October 31, 2018 and for the Twenty-eighth Fiscal Period Ending April 30, 2019

| Item | Preconditions and Assumptions |
|---------------------------|--|
| Calculation Period | • The twenty-seventh fiscal period: May 1, 2018 to October 31, 2018 (184 days) |
| Calculation Period | • The twenty-eighth fiscal period: November 1, 2018 to April 30, 2019 (181 days) |
| Property Portfolio | It is based on the premise that in addition to 97 properties owned by the Investment Corporation as of June 15, 2018, one property acquisition (CROSS PLACE Hamamatsucho, scheduled to be acquired on July 2, 2018) and two property sales (KDX Hamamatsucho Dai-2 Building, scheduled to be sold on July 2, 2018 and Frame Jinnan-zaka, scheduled to be sold on July 2, 2018 and November 1, 2018) are made by the issuance of new investment units according to "Notice Concerning Acquisition of Property (CROSS PLACE Hamamatsucho) and Sale of Properties (KDX Hamamatsucho Dai-2 Building • Frame Jinnan-zaka)". It is assumed that there will be no transfer of assets in the property portfolio (sale of owned properties, acquisition of properties, etc.), other than the above, by the end of the twenty-eighth fiscal period. The Investment Corporation also holds the TK equity other than above. It assumes the refund of the TK equity will not occur by the end of the twenty-eighth fiscal period. The actual results may fluctuate due to changes in the property portfolio. |
| Operating Revenues | Rental results may indeduate due to changes in the property portion. Rental revenues are estimated based on valid leasing agreements as of June 15, 2018 and by considering variable factors, such as seasonal factors against the backdrop of historical performance, as well as leasing conditions, such as the recent real estate market conditions, in addition to the difference in number of operating days due to movements in existing investment assets. Dividends received of 58 million yen for the twenty-seventh fiscal period and 42 million yen for the twenty-eighth fiscal period have been assumed with regard to the TK equity stated in the above "Property Portfolio". Forecasts are based on the assumption that there will be no rent in arrears or non-payments from tenants. The gain on sale of real estate, etc. of 527 million yen in the twenty-seventh fiscal period and 563 million yen in the twenty-eighth fiscal period is expected to be booked due to the sale of owned assets according to "Notice Concerning Acquisition of Property (CROSS PLACE Hamamatsucho) and Sale of Properties (KDX Hamamatsucho Dai-2 Building • Frame Jinnan-zaka)" released on May 14, 2018. The actual |
| Operating Expenses | results may fluctuate due to success/failure of the transactions, sale price, settlement date and other factors. Expenses related to rental business other than depreciation are based on the historic expenses, adjusted to reflect expense variables including seasonal factors. An amount of 1,388 million yen for the twenty-seventh fiscal period and 1,384 million yen for the twenty-eighth fiscal period has been assumed for property and facility management fees (property management and building maintenance fees, etc.). An amount of 1,230 million yen for the twenty-seventh fiscal period and 1,229 million yen for the twenty-eighth fiscal period has been assumed for taxes and public dues (property tax and city planning tax, etc.). In addition, the property tax and city planning tax, etc. of the properties acquired and to be acquired on and after January 1, 2018 are allocated to the seller and buyer on a pro rata basis at the time of acquisition settlement, and the amount equivalent to the portion allocated to the buyer is included in the acquisition cost of the property. Therefore no expenses are recorded for the twenty-eighth fiscal period, and only a portion (13 million yen) is recorded as expenses for the twenty-eighth fiscal period. An amount of 2,372 million yen for the twenty-seventh fiscal period and 2,388 million yen for the twenty-eighth fiscal period has been assumed for repairs, maintenance and renovation expenses. An amount of 464 million yen for the twenty-seventh fiscal period and 394 million yen for the twenty-eighth fiscal period has been assumed for repairs, maintenance and renovation expenses. In adduction ear perses for the fiscal period and 394 million yen for the twenty-eighth fiscal period has been assumed for repairs, maintenance and renovation expenses. Repairs, maintenance and renovation expenses are estimated based on the amounts budgeted by the Asset Management Company for each property and considered essential for the per |
| Non-Operating Expenses | Total expenses for the issuance of new investment units and the secondary offering of investment units as resolved at the Investment Corporation's board of directors held on May 14, 2018 are assumed to be 51 million yen. Such expenses will be amortized over a period of 3 years using the straight-line method. Interest payable (including financing related expenses etc.) of 1,012 million yen for the twenty-seventh fiscal period and 1,021 million yen for the twenty-eighth fiscal period is assumed. |
| Extraordinary Profit/Loss | • Extraordinary profit/loss is not assumed. |

| | KENEDIX OFFICE INVESTMENT CORPORATION (8972) |
|---|--|
| Item | Preconditions and Assumptions |
| Borrowings and Investment Corporation Bonds | The balance of the borrowings and the investment corporation bonds as of June 15, 2018 is 178,050 million yen and 7,800 million yen, respectively. Of the borrowings as of June 15, 2018, a total of 11,500 million yen in borrowings is due for repayment during the twenty-seventh fiscal period and a total of 11,550 million yen during the twenty-eighth fiscal period. However, it is assumed that all borrowings will be refinanced. Of the investment corporation bonds as of June 15, 2018, a total of 1,800 million yen is due for repayment by the end of the twenty-seventh fiscal period. It is assumed that all these investment corporation bonds will be redeemed with funds raised by issues of investment corporation bonds or debt financing, etc. |
| Investment Units Issued and Outstanding | The number of investment units issued and outstanding is assumed to total at 428,510 units, since 23,625 units, the aggregate investment units newly issued as resolved at the Investment Corporation's board of directors held on May 14, 2018, are added to the number of investment units issued and outstanding as of May 14, 2018 of 404,885 units. 23,625 units are comprised of (i) issuance of 22,500 new investment units through public offering and (ii) issuance of 1,125 new investment units through third-party allotment associated with a secondary offering via over-allotment. Forecasts are based on the assumption that the number of investment units issued and outstanding shall remain unchanged until the end of the 28th fiscal period, excluding the above mentioned issued 23,625 units. |
| Distributions per Unit | Distributions per unit are calculated in accordance with the Cash Distribution Policies outlined in the Investment Corporation's Articles of Incorporation. Forecasts are calculated on the assumption that the amount remaining after deducting provision of reserve for reduction entry of 340 million yen for the twenty-seventh fiscal period and 299 million yen for the twenty-eighth fiscal period from net income is distributed. Actual distributions per unit may differ significantly from forecasted figures due to a variety of reasons including movements in investment assets, rental revenues impacted by tenant movements or incidence of major unforeseen renovation expense. |
| Distributions in Excess of Earnings per Unit | The Investment Corporation does not currently anticipate distributions in excess of earnings. |
| Other | Forecasts are based on the assumption that any revisions to regulatory requirements, taxation, accounting standards, public listing regulations or requirements of the Investment Trusts Association, Japan will not impact forecast figures. Forecasts are based on the assumption that there will be no major unforeseen changes to economic trends and in real estate and other markets. |

| 4. Accounting standards for revenues and expenses | Accounting method for property tax, etc. Property-related taxes including property taxes and city planning taxes, etc. are imposed on properties on a calendar year basis. These taxes are generally charged to rental expenses for the said fiscal period, for the portion of such taxes corresponding to said period. In connection with the acquisition of real estate or trust beneficiary interests in real estate during the fiscal period under review, the Investment Corporation included it's pro rata property portion for the year in each property acquisition cost and not as rental expense. The amount of property taxes included in acquisition cost for the previous fiscal period amounted to 26,264 thousand yen and for the fiscal period under review amounted to 53,876 thousand yen. |
| 5. Accounting for hedges | (1) Hedge accounting methodThe deferred hedge method is applied. However, the special treatment is applied for the interest-rate swap and interest-rate cap agreements that meet the criteria. |
| | (2) Hedging instruments and risks hedged Hedge instruments The Investment Corporation enters into interest-rate swap transactions. The Investment Corporation enters into interest-rate cap transactions. Risks hedged Interest rates on debt. |
| | (3) Hedging policy The Investment Corporation enters into derivative transactions based on its risk management policies with the objective of hedging risks in accordance with its Articles of Incorporation. |
| | (4) Method of evaluating the effectiveness of hedging During the period from the commencement of hedging to the point at which effectiveness is assessed, the Investment Corporation compares the cumulative total of market changes in the targeted objects of hedging or cash flow changes with the cumulative total of market changes in the hedging instruments or cash flow changes. The Investment Corporation then makes a decision based on the changes and other factors of the two. However, concerning the interest-rate swap and interest-rate cap agreements that meet the criteria for special treatment, the evaluation of effectiveness are omitted. |

(Notes on the Financial Instruments)

1. Items with Regard to the current status of Financial Instruments

(1) Action Policy with Regard to Financial Instruments

The Investment Corporation procures essential funds for acquiring properties and undertaking the repayment of loans primarily through bank loans and the issuance of investment corporation bonds and new investment units. The Investment Corporation makes use of derivative instruments primarily as a risk hedge against interest rate fluctuations and to lessen interest-rate payments. In addition, it is company policy to not conduct speculative derivative transactions. Management of surplus funds is undertaken in a prudent manner that considers fully such factors as safety, liquidity, interest rate conditions and cash flows.

(2) Financial Instruments and Respective Risks

Investment securities are TK interests, which are subject to credit risk of the issuer and risk of fluctuation of value of real estate, etc.

Loans and investment corporation bonds are used primarily for procuring funds necessary for the acquisition of properties and have a redemption date of a maximum of about 10 years following the closing date. Although a certain portion of said liabilities are subject to interest rate fluctuation risks, the Investment Corporation utilizes derivative instruments (interest-rate swap transactions, etc.) in order to hedge against such risks.

Derivative instruments are interest-rate swap and interest-rate cap transactions that are used to hedge against interest rate fluctuation risks. Utilizing interest-rate swap transactions, the Investment Corporation fixed its interest payments for funds procured on a floating interest rate basis or minimizing the risk of interest rate increase. With regard to hedge accounting methods, hedging instruments and hedged items, hedge policy, and the method of evaluation of hedge effectiveness, please refer to "5. Accounting for hedges in notes concerning Important Accounting Standards".

(3) Risk Management Structure with Regard to Financial Instruments

A. Management of Market Risk (Risk Associated with Fluctuations in Interest Rates and Others)

The Investment Corporation uses interest-rate swap etc., in order to minimize risks associated with interest payment rate fluctuations on funds procured.

The Investment Corporation will periodically grasp the value of real estate, etc. and financial condition, etc. of the issuer with regard to investment securities.

B. Management of Liquidity Risk (Risk of Defaulting on Payments by the Due Date) Associated with Funds Procurement

Although loans and other liabilities are subject to liquidity risks, the Investment Corporation reduces such risks by spreading out payment due dates and by using diversified fund procurement methods. Liquidity risk is also managed by such means as regularly checking the balance of cash reserves.

(4) Supplemental Explanation of Items with Regard to Fair Value of Financial Instruments

Included in the fair value of financial products are market prices, or, in the event market prices are not available, prices that are calculated on a rational basis. Because the factors incorporated into the calculation of these prices are subject to change, differing assumptions are adopted which may alter fair value. Moreover, the contract amounts, etc. of derivative transactions in "2. Items with Regard to Fair Value of Financial Instruments" do not indicate the market risk of derivative transactions.

Note 1: Items with regard to the calculation method of financial instrument fair value, investment securities and derivative transactions.

Assets

(1) Cash and deposits, (2) Cash and deposits in trust

Because these are settled in the short-term, the fair value can be considered as equivalent to the book value; therefore, the book value is used to determine fair value.

Liabilities

(1) Short-term loans payable

Because these are settled in the short-term, the fair value can be considered as equivalent to the book value; therefore, the book value is used to determine fair value.

(2) Current portion of investment corporation bonds and (4) investment corporation bonds The fair value of investment corporation bonds is based on market prices.

(3) Current portion of long-term loans payable and (5) long-term loans payable

The fair value of long-term borrowings is calculated based on the present value that discounts the total amount of principal and interest by using the estimated interest rate in the event that the Investment Corporation conducts new borrowings of the same type. Among long-term borrowings with floating interest rates, the said borrowings, which are subject to special treatment of interest-rate swaps or caps, are calculated by discounting the total amount of principal and interest, which is handled together with applicable interest-rate swaps or caps, by the rationally estimated interest rate in the case that the same type of borrowings are undertaken.

| Fair value at the end of period | 424,323,000 | 442,773,000 |

Note 1: Book value excludes accumulated depreciation from acquisition costs.

- Note 2: Fair value at the end of the fiscal period is the appraisal value determined by outside appraisers. Fair value at the end of the previous fiscal period of Residence Charmante Tsukishima that was sold on December 1, 2017 is calculated based on the sale price (4,900 million yen) in the transaction agreement on October 30, 2017. Those of KDX Ikejiri-Oohashi Building and KDX Shin-Yokohama 214 Building that were sold on December 28, 2017are calculated based on the sale price (KDX Ikejiri-Oohashi Building: 2,400 million yen; KDX Shin-Yokohama 214 Building: 2,430 million yen) in the transaction agreements on December 14, 2017. Fair value at the end of the fiscal period under review of KDX Hamamatsucho Dai-2 Building and Frame Jinnan-zaka that are scheduled to be sold on July 2, 2018, and July 2, 2018 and November 1, 2018 respectively are calculated based on the anticipated sale price (Total: 12,550 million yen) in the transaction agreements on May 14, 2018.
- Note 3: Among changes in the amount of real estate for rental purposes that occurred during the previous fiscal period, principal increase/decrease factors were the acquisition of real estate trust beneficiary interests in 2 properties totaling 5,405,572 thousand yen, the sale of real estate trust beneficiary interests in 1 property totaling 5,419,438 thousand yen and depreciation amounting in 2,293,789 thousand yen. For the fiscal period under review, principal increase/decrease factors were the acquisition of real estate trust beneficiary interests in 2 properties totaling 24,692,691 thousand yen, the sale of real estate trust beneficiary interests in 3 properties totaling 9,056,075 thousand yen and depreciation amounting in 2,293,308 thousand yen.

Income and loss for real estate for rental purposes are listed in "Notes to the Statements of Income".

Note 1: Acquisition prices are the purchase prices for trust beneficiary interests or properties acquired by the Investment Corporation (excluding

acquisition costs, property tax, city planning tax, consumption tax, etc., rounded down to the nearest million yen.).

Note 2: Figures of less than 1 million are rounded down from the amounts on the balance sheet.

Note 3: Appraisal values at the end of fiscal period are based on the asset valuation method and standards outlined in the Investment Corporation's Articles of Incorporation and regulations formulated by the Investment Trusts Association, Japan. Appraisal values are transcribed from valuation reports prepared by Japan Real Estate Institute and Daiwa Real Estate Appraisal Co., Ltd.

Note 4: Appraisals of the properties were entrusted to two appraisers: Japan Real Estate Institute and Daiwa Real Estate Appraisal Co., Ltd. In the table, the appraisers are referred to as "A" for Japan Real Estate Institute and "B" for Daiwa Real Estate Appraisal Co., Ltd.

Note 5: Figures are the acquisition price of each asset as a percentage of the total acquisition prices for the portfolio rounded down to the nearest first decimal place. The figures entered in the subtotal and total columns are those obtained by dividing the subtotal (total) of acquisition prices of properties corresponding to each subtotal and total column by the total acquisition price of the entire assets (97 properties).

Note 6: The Investment Corporation changed the property names for the following buildings. Same applies below.

| No. | New Property Name | Old Property Name | Change of Date |
|-------|--------------------------------|-------------------------|------------------|
| A-118 | KDX Sapporo Kitaguchi Building | Takeyama White Building | February 1, 2018 |
| A-119 | KDX Shibuya Nanpeidai Building | Shibuya 1717 Building | April 1, 2018 |

B. Property Distribution

Note 1: Site area data is based on figures recorded in the land register (including relevant figures for land leasehold, if any). Data may not match with the actual current status. In the case of buildings with compartmentalized ownership, the figure indicates the site area of the entire land subject to site rights.

- Note 2: Usage is based on data recorded in the land register. For buildings with compartmentalized ownership, the usage type of exclusively-owned area is shown.
- Note 3: Total floor area is based on figures recorded in the land register and does not include related structures. The total floor area for the entire building is reported for compartmentalized ownership.
- Note 4: Type of structure data is based on data recorded in the land register. For buildings with compartmentalized ownership, the structure and the number of floors of the entire building that includes the compartmentalized ownership is shown. The following abbreviations are used to report data relating to structure and the number of floors:

SRC: Steel-Reinforced Concrete; RC: Reinforced Concrete; S: Steel Frame; B: Below Ground Level; F: Above Ground Level.

For example: B2F9: Two floors below ground level and nine floors above ground level.

Note 5: Completion date is the date of construction completion recorded in the land register. Average age subtotal and total data are calculated using the weighted-average based on acquisition prices as of April 30, 2018, and are rounded down to the first decimal place.

Note 6: Probable Maximum Loss (PML) data is based on a survey provided by Sompo Risk Management & Health Care Inc. as of April 2018.

Note 7: KDX Kobayashi Doshomachi Building includes the fixed term land leasehold with a special agreement to transfer building.

Note 1: Total leasable floor area refers to the leasable floor area for a building (aggregate total of the leasable floor area of each building in the case of more than one building), excluding land (including land for one-story parking) identified in lease agreements or construction completion plans, etc. However, the indicated figure of rentable area for Pentel Building includes rentable area for land stated in the lease agreement. The indicated figure of rentable area for Shinjuku 6chome Building (Land) is rentable area stated in the land lease agreement.

Note 2: Total leased floor area refers to the area identified in lease agreements with end tenants or sub-lease agreements.

Note 3: The number of leasable residential units and the number of leased residential units refers to the portion of the building used for residential purposes.

Note 4: The number of leased residential units refers to the number of residential units among leasable residential units for which lease agreements with end tenants or sub-lease agreements are signed.

Note 5: The number of tenants refers to the actual number of end tenants for each property.

Note 6: Occupancy rate is calculated by dividing leased floor area by total leasable floor area. Figures are rounded to the nearest first decimal place.

Note 7: Rental and other operating revenues refers to the total amount of revenues generated during the fiscal period under review from real estate rental

operations including leasing revenues, common charges and parking revenues rounded down to the nearest thousand yen. (Reference)

 Note I: The average interest rate is the weighted-average interest rate during the fiscal period. Figures for borrowings, for which interest-rate swap transactions were contracted with the aim of minimizing

the risk of future increase in interest rates, are listed as weighted-average interest rates considering the effect of interest-rate swap. Note 2: Funds procured through borrowings are used to acquire real estate or trust beneficiary interests in real estate and to repay borrowings, etc.

Note 3: Borrowings are listed in the current portion of long-term loans payable from the fiscal period under review, listed in long-term loans payable in the previous fiscal period.

Note 4: The Bank of Tokyo-Mitsubishi UFJ, Ltd. changed its corporate name to MUFG Bank, Ltd. on April 1, 2018.

Note 5: MUFG Bank, Ltd. succeeded to the status of lender from Mitsubishi UFJ Trust and Banking Corporation due to the absorption-type demerger of Mitsubishi UFJ Trust and Banking Corporation (the splitting company) and MUFG Bank, Ltd. (the successor company) on April 16, 2018.

Note 6: Prepayment of borrowings was made on December 28, 2017.
